SUPPLEMENTARY INFORMATION:

Title: Veterans Affairs Acquisition Regulation (VAAR) Clause 852.211-75, Technical Industry Standards.

OMB Control Number: 2900-0586.

Type of Review: Reinstatement, without change, of a previously approved collection for which approval has expired.

Abstract: VAAR clause 852.211-75, Technical Industry Standards, requires that items offered for sale to VA under solicitation conform to certain technical industry standards, such as Underwriters Laboratory (UL) or the National Fire Protection Association and that the contractor furnish evidence to VA that the items meet that requirement. The evidence is normally in the form of a tag or seal affixed to the item, such as the UL tag on an electrical cord or a tag on a fire-rated door. This requires no additional effort on the part of the contractor, as items come from the factory with tags already in place, as part of the manufacturer's standard manufacturing operation. Occasionally, for items not already meeting standards or for items not previously tested, a contractor will have to furnish a certificate from an acceptable laboratory certifying that the items furnished have been tested in accordance with, and conform to, specified standards. Only firms whose products have not previously been tested to ensure the products meet industry standards required under solicitation will be required to submit a separate certificate. The information will be used to ensure that items being purchased meet minimum safety standards and to protect VA employees, VA beneficiaries and the public.
