Synopsis

In its *First Report and Order* on TRS, (56 FR 36729, August 1, 1991) the Commission established minimum operational, technical, and functional standards to fulfill this mandate. Last year, the Commission released additional minimal standards to supplement these earlier standards. Specifically, in its *Improved TRS Order and FNPRM*, (65 FR 38490, June 21, 2000) the Commission both expanded the scope of eligible services that would be classified to receive reimbursement as relay services, and established new criteria for relay providers to improve the quality of relay services. Among other things, the *Improved TRS Order and FNPRM* added speech-to-speech (STS) and interstate Spanish relay as required relay offerings, and permitted the recovery of video relay service (VRS) costs through the interstate TRS funding mechanism. The Order encouraged, but

did not require the provision of VRS at the present time. On December 22, 2000, WorldCom filed a Petition for Clarification of the *Improved TRS Order and FNPRM* (Petition) seeking clarification that its connection to TRS via the Internet (IP Relay) is eligible for reimbursement from the Interstate TRS Fund. On May 8, 2001, representatives from WorldCom met with Commission staff to further discuss WorldCom's petition. See, *Ex parte* letter from Larry Fenster, WorldCom, to Magalie Salas, Secretary, Federal Communications Commission, dated May 9, 2001. Additionally, on May 18, 2000, representatives from Communications Services for the Deaf made a presentation to Commission staff on its for a similar IP-based relay service. See, *Ex parte* letter from Philip W. Bravin, Communications Services for the Deaf, to Magalie Salas, Secretary, Federal Communications Commission, dated May 23, 2001. Although the information gathered at these meetings, together with the formal comments submitted in response to both the *Improved TRS Order and FNPRM* and the informal comments submitted in response to the WorldCom petition have provided the Commission with basic information about IP Relay, it has become clear that additional information is needed before the Commission can issue a final order on this subject.
