Expert Roundtable on the Ticket Program Evaluation for People With Significant Disabilities and the Adequacy of Incentives Study

Date: July 27, 2001, 8:30 a.m. to 5 p.m.

Roundtable Questions and Issues

- Discussion of SSA's overall evaluation and Adequacy of Incentives Study design and methodology. SSA question: What are the outcomes of interest? What needs to be accomplished by the study, included in the Report to Congress, and implemented prior to the end of the three-year period? What does Congress need to know and how should the information be provided?

- Discussion of SSA's question: "What are objective means of identifying, through SSA administrative data, the target populations as defined in Section 101(h)(5)(C) of P. L. 106-170, the Ticket to Work and Work Incentives Improvement Act? What other sources are available to identify the target population as defined in the statute?"

- Who are the experts and what information resources should be considered regarding current and past projects and successful efforts to support individuals with significant disabilities to achieve integrated jobs in the community, at or above minimum wage? (i.e. What have we learned from the PASS plans, Choice projects, successful supported employment and other employment?)

- What other means of identifying the information needed in order for

individuals in the target populations to achieve employment should be considered, i.e. review of the literature and best practice, targeted studies, demonstration projects? What should the timing and design be, and what expertise is necessary to conduct reviews, projects, studies, etc.?"

- How can SSA study/review/demonstrate how individualized milestones¹ could be used effectively to achieve employment for these individuals?

- What is the best way to address the SSA question: What about the array of services, e.g. cost, is of interest? How can SSA determine what services are most effective in assisting individuals in the four categories obtain and retain successful employment? What do the services cost and how are they provided?

- What are the best ways to ensure that various and diverse populations are represented in the research study?

- How should consumers, family members, and/or their representatives be included in the study design planning process and study implementation?

- How should Employment Networks² be consulted as part of the Adequacy of Incentives Study regarding the incentives needed to serve individuals in the four target populations defined in the statute?

¹ SSA will address, in the Adequacy of Incentives Report due to Congress in December 2002, the efficacy of individualized milestones. The Work Incentives Advisory Panel recommends that SSA should also consider the immediate implementation of an individualized milestone system. The system would provide individualized milestones for individuals with a need for on-going support services, individuals who need high-cost accommodations, individuals who earn a sub-minimum wage, and individuals who work and receive partial cash benefits along the lines of systems already in use in Massachusetts, Oklahoma and other states. These systems use the individualized planning process to determine if and when a different set of milestones is necessary, and establish a plan for payments and accountability for payments.

² Each EN serving under the Ticket to Work program shall consist of an agency or instrumentality of a State (or political subdivision thereof) or a private entity that assumes responsibility for the coordination and delivery of services under the program to beneficiaries assigning tickets to it. An EN may consist of a one-stop delivery system established under subtitle B of title I of the Workforce Investment Act of 1998.
