

these interruptions will assist the Commission and the natural gas industry in fulfilling their obligations to the public to provide better service through increased efficiency and

reliability. The data required to be filed for notification of interruptions is specified by 18 Code of Federal Regulations (CFR) 260.9.

*Action:* The Commission is requesting a three-year extension of the current

expiration date, with no changes to the existing collection of data.

*Burden Statement:* Public reporting burden for this collection is estimated as:

Number of respondents annually	Number of responses per respondent	Average burden hours per response	Total annual burden hours
(1)	(2)	(3)	(1)×(2)×(3)
15	1	1	15

The estimated total cost to respondents is \$844 (15 hours divided by 2,080 hours per year per employee times \$117,041 per year per average employee = \$844). The cost per respondent is \$56.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including

the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology e.g. permitting electronic submission of responses.

#### Columbia Gas Transmission Corporation; Notice of Compliance Filing

July 19, 2001.

Take notice that on July 12, 2001, Columbia Gas Transmission Corporation (Columbia) tendered for filing a compliance filing in Docket No. RP01-432.

On June 27, 2001, the Commission issued an order in the above referenced docket (June 27 Order). The Commission noted, however, that a pipeline must demonstrate that the filed for service "could not be provided under a generally applicable tariff." The Commission also found that Columbia "had not provided sufficient information for other shippers to evaluate the operational impact of Columbia's proposed service." Columbia therefore was ordered to file the supporting information within 15 days. Columbia is submitting the instant filing in compliance with these directives.

Columbia states that copies of its filing have been mailed to all parties on the official service list in this proceeding.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to

the proceedings. Copies of this filing are on file with the Commission and are available for public inspection. #### Columbia Gas Transmission Corporation; Notice of Compliance Filing

July 19, 2001.

Take notice that on July 12, 2001, Columbia Gas Transmission Corporation (Columbia) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, Sub First Revised First Revised Sheet No. 500B bearing a proposed effective date of June 1, 2001.

Columbia states that the instant filing is being made to comply with an Order (Order) issued by the Commission on June 27, 2001. On May 29, 2001 Columbia made a filing with the Commission to re-file service agreements with FirstEnergy Trading Services Inc (FirstEnergy) as non-conforming service agreements to be effective June 1, 2001. The Order accepted the filing conditioned on Columbia re-filing Sheet No. 500B. In the May 29, 2001, filing Columbia inadvertently neglected to list the "Docket No." applicable to the FirstEnergy contracts. The tariff sheet in the instant filing is being made to correct this oversight.

Columbia states that copies of its filing have been mailed to all firm customers, interruptible customers, and affected state commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with Section 154.210 of the Commission's

#### Dauphin Island Gathering Partners; Notice of Proposed Changes in FERC Gas Tariff

July 20, 2001.

Take notice that on July 13, 2001, Dauphin Island Gathering Partners (DIGP) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the tariff sheets listed below to become effective August 12, 2001. DIGP states that it no longer has a marketing affiliate and is revising the tariff accordingly.

First Revised Sheet No. 109  
Second Revised Sheet No. 243

DIGP states that copies of the filing are being served on its customers and other interested parties.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be
