## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission,

[FERC Docket Nos. CP01-22-000 and CP01-23-000; CA Clearinghouse No. 2001011020; BLM Reference No. CACA-42662]

### North Baja Pipeline, LLC; Notice of Availability/Completion of the Draft Environmental Impact Statement/ Report and Draft Land Use Plan Amendment for the Proposed North Baja Pipeline Project

July 20, 2001.

The staffs of the Federal Energy Regulatory Commission (FERC or Commission), the California State Lands Commission (CSLC), and the Bureau of Land Management (BLM) have prepared this draft environmental impact statement/report (EIS/EIR) and draft land use plan amendment (plan amendment) to address natural gas pipeline facilities proposed by North Baja Pipeline, LLC (NBP).

The draft EIS/EIR and draft plan amendment was prepared as required by the National Environmental Policy Act (NEPA), the California Environmental Quality Act, and the Federal Land Management and Policy Act. Its purpose is to inform the public and the permitting agencies about the potential adverse and beneficial environmental impacts of the proposed project and its alternatives, and recommend mitigation measures that would reduce any significant adverse impacts to the maximum extent possible and, where feasible, to a less than significant level. The FERC, the CSLC, and the BLM staffs conclude that approval of the proposed project, with appropriate mitigating

measures as recommended, would have limited adverse environmental impact.

The BLM is participating as a cooperating agency in the preparation of this document because the project would cross Federal land under the jurisdiction of the Palm Springs, El Centro, and Yuma Field Offices. The Bureau of Reclamation (BOR) is also a cooperating agency in the preparation of this document because lands administered by the BOR would be crossed by the project. This draft EIS/EIR and draft plan amendment will be used by the BLM to consider issuance of a right-of-way grant for the portion of the project on lands managed by the BLM and the BOR. This draft EIS/EIR and draft plan amendment will also be used by the BLM to consider amending the California Desert Conservation Area (CDCA) Plan (as amended), which would be necessary for pipeline construction outside of designated utility corridors, as well as amending the Yuma District Resource Management Plan (Yuma District Plan), which would be necessary for pipeline construction across the Milpitas Wash Special Management Area. The BLM proposes to adopt this draft EIS/EIR and draft plan amendment per Title 40 Code of Federal Regulations (CFR) Part 1506.3 to meet its responsibilities under NEPA and its planning regulations per Title 43 CFR Part 1610. The BLM Arizona and California State Directors have approved the draft plan amendments for their respective planning areas. The BLM will present its Record of Decision for the North Baja Pipeline Project after the issuance of the final EIS/EIR and proposed plan amendment.

The draft EIS/EIR and draft plan amendment addresses the potential environmental effects of the construction and operation of the following facilities in Arizona and California:

- About 79.9 miles of 36-inch-diameter (11.8 miles) and 30-inch-diameter (68.1 miles) natural gas pipeline (North Baja pipeline) extending from an interconnection with El Paso Natural Gas Company (El Paso) in La Paz County, Arizona, through Riverside and Imperial Counties, California, to an interconnection at the international border between the United States and Mexico;

- A new compressor station (Ehrenberg Compressor Station) consisting of three gas-fired centrifugal compressor units for a total horsepower ranging from 18,810 to 21,600 (with one additional spare unit) at the El Paso interconnect in La Paz County, Arizona;
- Two meter stations, one at the interconnect with El Paso at the

Ehrenberg Compressor Station site (Ehrenberg Meter Station) and one in Imperial County, California near the interconnect at the international border (Ogilby Meter Station);

- A pig launcher facility at the Ehrenberg Compressor Station site; a pig receiver facility at the Ogilby Meter Station site; and a separate pig launcher/receiver facility (Rannells Trap) in Riverside County, California; and
- Seven mainline valves, one each at the Ehrenberg Compressor Station site, Rannells Trap, and Ogilby Meter Station site, and another four spaced as required along the proposed pipeline route.
