The Mineral Materials Act of 1947, as amended (Act), 30 U.S.C. 601 and 602, provides for the disposal of mineral materials, such as sand, gravel, and petrified wood from public lands by sale or free use. BLM implements disposing of such materials under 43 CFR 3600 and 3610. BLM will use Form 3600-1 to collect information to:

(1) Determine if the sale of mineral materials is in the public interest;

(2) Mitigate the environmental impacts of mineral materials development;

(3) Get fair market value for the materials sold; and

(4) Prevent trespass removal of the materials.

Applicants must submit a request in writing to BLM to purchase mineral materials. Specific information requirements are not stated in the regulations, but all sale agreements are made on the contract form approved by BLM.

Based upon BLM experience and recent tabulations of activity, we process approximately 2,800 contracts for mineral materials each year. The public reporting information collection burden takes 30 minutes. Depending on the complexity of the projects, actual time may vary from 15 minutes to several days to complete and compile supporting documentation. The estimated number of responses per year is 2,800. The estimated total annual burden is 1,475 hours.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.

Dated: July 23, 2001.
