

Mailstop E-29, 1600 Clifton Road, NE, Atlanta, Georgia 30333, telephone 1-(888) 422-8737 or (404) 498-0720.

SUPPLEMENTARY INFORMATION: These toxicological profiles were developed by ATSDR for hazardous substances at Department of Energy (DOE) waste sites under Section 104(i)(3) and (5) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA or Superfund). This public law directed ATSDR to prepare toxicological profiles for hazardous substances most commonly found at facilities on the CERCLA National Priorities List (NPL) and that pose the most significant potential threat to human health, as determined by ATSDR and the U.S. Environmental Protection Agency (EPA). The current ATSDR priority list of hazardous substances at DOE NPL sites was announced in the **Federal Register** on July 24, 1996 (61 FR 38451).

Although key studies for each of the substances were considered during the profile development process, this **Federal Register** notice seeks to solicit any additional studies, particularly unpublished data and ongoing studies, which will be evaluated for possible addition to the profiles now or in the future.

The following draft toxicological profiles will be made available to the public on or about August 7, 2001.

Document	Hazardous substance	CAS No.
1	Americium	7440-35-9
2	Cesium	7440-46-2
	Cesium Chloride	7647-17-8
	Cesium-134	13967-70-9
	Cesium-137	010045-97-3
3	Strontium	7440-35-9

All profiles issued as "Drafts for Public Comment" represent ATSDR's best efforts to provide important toxicological information on priority hazardous substances.

We are seeking public comments and additional information which may be used to supplement these profiles. ATSDR remains committed to providing a public comment period for these documents as a means to best serve public health and our clients.

Dated: August 1, 2001.

Georgi Jones,
 Director, Office of Policy and External Affairs,
 Agency for Toxic Substances and Disease Registry.

[60 Day-01-55]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639-7090.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project: Evaluating the Impact of Lymphedema and a Lymphedema Management Intervention for Women with Lymphatic Filariasis: Understanding Issues Related to Quality of Life—New—National Center for Infectious Diseases (NCID), Centers for Disease Control and Prevention (CDC).

Lymphatic filariasis, a mosquito-transmitted parasitic disease affecting over 120 million people, is the second leading cause of permanent disability worldwide. Globally, lymphatic filariasis causes debilitating genital disease in an estimated 25 million men and lymphedema or elephantiasis of the leg in 15 million people, mostly women in poverty stricken countries. The World Health Organization (WHO) recently identified community management of chronic lymphedema as one of the top twenty lymphatic filariasis research priorities. Recent advances in the management of chronic lymphedema include a prescribed hygiene and wound care intervention. This intervention has shown promising results in preventing bacterial infections thus reducing acute attacks, and anecdotally improving overall quality of life, alleviating pain and preventing further suffering.

This pilot study will provide a micro-level perspective of women's own experiences of living with lymphedema and others responses to it, illuminating the nature of the disease, the vulnerability of those disabled by the disease, and the impact of an intervention to influence the consequences of having the disease. This study will provide a better understanding, through a combination of qualitative and quantitative methods, the influence of lymphedema as well as the efficacy of a lymphedema management intervention in reducing episodes of bacterial infections and improving quality of life in women with lymphedema in two developing countries.

Women will be queried through in-depth interviews, focus groups, and questionnaire surveys as to the influence of lymphedema on their lives. Quality of life domains that will be explored include physical health, psychological health, social relationships, economic productivity, spiritual health, stigma, and environment. Recommendations will be derived from this study for the global community of lymphatic filariasis researchers in developing countries initiating national and local programs for the management of chronic lymphedema. There are no costs to respondents.

Women respondents	Number of respondents	Number of responses per respondents	Average burden per response (in hours)	Total burden (in hours)
Qualitative interviews in site A and site B	50	1	30/60	25

Women respondents	Number of respondents	Number of responses per respondents	Average burden per response (in hours)	Total burden (in hours)
Quantitative Survey in site A and site B	200	1	1	200
Total	250			225

Dated: July 30, 2001.

Nancy Cheal,

Acting Associate Director for Policy, Planning and Evaluation, Centers for Disease Control and Prevention.

[Program Announcement 01196]

Evaluation of Breast Cancer Incidence; Notice of Availability of Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2001 funds for a grant program for an Evaluation of Breast Cancer Incidence in DuPage County, Illinois. This program addresses the "Healthy People 2010" focus areas of Cancer and Environmental Health.

The purpose of the program is to conduct an analysis of data routinely collected by health service organizations on breast cancer morbidity and mortality in DuPage County, Illinois. Through this program, the DuPage County Health Department will be able to determine the incidence of breast cancer in the county and to outline a plan to address the programmatic and health issues identified.

No human subjects research will be supported under this program announcement.

B. Eligible Applicant

Assistance will be provided only to the DuPage County Health Department in Wheaton, Illinois. No other applications are solicited. Eligibility is limited to the DuPage County Health Department because Fiscal Year 2001 federal appropriations specifically direct the Centers for Disease Control and Prevention to award funds to evaluate the high incidence of breast cancer in DuPage County, Illinois.

Note: Title 2 of the United States Code, Chapter 26, Section 1611 states that an organization described in section 501(c)(4) of

the Internal Revenue Code of 1986 that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, cooperative agreement, contract, loan, or any other form.

C. Availability of Funds

Approximately \$92,000 is available in FY 2001 to fund this award. It is expected that the award will begin on or about September 30, 2001, and will be made for a one year project period. Funding estimates may change.

D. Where To Obtain Additional Information

This and other CDC announcements can be found on the CDC home page Internet address—<http://www.cdc.gov> Click on "Funding" then "Grants and Cooperative Agreements."

To obtain business management technical assistance, contact: Sharron Orum, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention, 2920 Brandywine Road, Room 3000, Atlanta, GA 30341-4146, Telephone number: (770) 488-2716, Email address: spo2@cdc.gov

For program technical assistance, contact: Ronney Lindsey, Deputy Director, Division of Environmental Hazards and Health Effects, National Center for Environmental Health, Centers for Disease Control and Prevention, 4770 Buford Highway, Mailstop E19, Atlanta, GA 30341, Telephone number: (404) 498-1308, Email address: rll3@cdc.gov

Dated: August 1, 2001.

John L. Williams,

*Director, Procurement and Grants Office
Centers for Disease Control and Prevention

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 01N-0319]

Agency Information Collection Activities; Proposed Collection; Comment Request; Health and Diet Survey

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act of 1995 (the PRA), Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information and to allow 60 days for public comment in response to the notice. This notice solicits comments on a voluntary consumer survey about knowledge, perceptions, attitudes, and practices related to dietary supplements and food.

DATES: Submit written or electronic comments on the collection of information by October 9, 2001.

ADDRESSES: Submit electronic comments on the collection of information to <http://www.accessdata.fda.gov/scripts/oc/dockets/edockethome.cfm>. Submit written comments on the collection of information to the Dockets Management Branch (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852. All comments should be identified with the docket number found in brackets in the heading of this document.

FOR FURTHER INFORMATION CONTACT: Peggy Schlosburg, Office of Information Resources Management (HFA-250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-827-1223.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor.
