#### **Certain Hot-Rolled Flat-Rolled Carbon Quality Steel Products From Brazil: Preliminary Results of Antidumping Duty Administrative Review of the Suspension Agreement**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of preliminary results of antidumping duty administrative review of the suspension agreement.

**SUMMARY:** In response to a request from petitioners, Bethlehem Steel Corporation, Ispat Inland, Inc., LTV Steel Company Inc., National Steel Corporation, and U.S. Steel Group, a unit of USX Corporation (collectively domestic producers), the Department of Commerce (the Department) is conducting an administrative review of the Suspension Agreement on hot-rolled flat-rolled carbon quality steel (hot-rolled steel) from Brazil. This review covers three manufacturers and exporters of the subject merchandise, Companhia Siderurgica Nacional (CSN), Usinas Siderurgicas de Minas Gerais (USIMINAS), and Companhia Siderurgica Paulista (COSIPA) during the period of review (POR) from July 19, 1999 through June 30, 2000. We preliminarily determine that CSN and USIMINAS have made sales below the reference price established by the Suspension Agreement. We also preliminarily determine that the amount by which the estimated normal value exceeds the export price for each entry by CSN and USIMINAS/COSIPA indicates that the dumping margin on certain entries exceeds 15 percent of the weighted average margin for CSN and USIMINAS/COSIPA in the LTV investigation. For reasons stated in this notice, the Department preliminarily determines that CSN and USIMINAS/COSIPA have violated the Agreement. Interested parties are invited to comment on these preliminary results. Parties who submit comments are requested to submit with the argument: (1) a statement of the issues and (2) a brief summary of the arguments.

**EFFECTIVE DATE:** August 8, 2001.

### Background

On July 6, 1999, the Department entered into the Agreement Suspending the Antidumping Investigation on Hot-Rolled Flat-Rolled Carbon-Quality Steel from Brazil produced by CSN, USIMINAS, and COSIPA. *See Suspension of Antidumping Duty Investigation: Hot-Rolled Flat-Rolled Carbon-Quality Steel Products from Brazil*, 64 FR 38792, (July 19, 1999) (Suspension Agreement). This agreement was entered into under section 734(c) of the Act and section 351.208 of the Department's regulations. Section 734(c)(1) of the Act requires: (1) that the agreement eliminate completely the injurious effect of exports to the United States of the subject merchandise and (2) that the suppression or undercutting of price levels of domestic products by imports of the merchandise will be prevented; and (2) that for each entry of each exporter, the amount by which the estimated normal value exceeds the export price (or constructed export price) will not exceed 15 percent of the weighted average amount by which the estimated normal value exceeded the export price (or constructed export price) for all less-than-fair-value entries of the producer/exporter examined during the course of the investigation. To satisfy the statutory criteria, the Suspension Agreement requires all signatories (CSN, USIMINAS, and COSIPA) to sell covered products in the United States at or above established reference prices and to satisfy the requirements of section 734(c)(1)(B) of the Act. The reference prices are set on a quarterly basis and include all transportation charges to the U.S. port of entry, together with port fees, duties, offloading, wharfage, and other charges incurred in bringing the steel to the first customs port of discharge in the U.S. market. *See* the Suspension Agreement, 64 FR 38793.
