n. *Scoping Process.* The Commission intends to prepare an Environmental Assessment (EA) on the project in accordance with the National Environmental Policy Act. The EA will consider both site-specific and cumulative environmental impacts and reasonable alternatives to the proposed action.

Scoping Meetings

The Commission will hold two scoping meetings, one in the evening and one during the day, to help us identify the scope of issues to be addressed in the EA.

The evening scoping meeting is primarily for public input and the daytime scoping meeting will focus on resource agency concerns. All interested individuals, organizations, and agencies are invited to attend one or both of the meetings, and to assist the staff in identifying the scope of the environmental issues that should be analyzed in the EA. The times and locations of these meetings are as follows:

Evening Scoping Meeting

Date: November 1, 2001
Time: 7 to 9 p.m.
Place: Best Western, Plattsburgh, NY

Daytime Scoping Meeting

Date: November 2, 2001
Time: 10 a.m. to 12 p.m.
Place: Best Western, Western, Plattsburgh, NY

Individuals needing directions to the scoping meetings should contact Ms. Carol Howland, NYSEG, at 607-762-8881.

To help focus discussions, we will distribute a Scoping Document (SD1) outlining the subject areas to be addressed in the EA to the parties on the Commission's mailing list. Copies of the SD1 also will be available at the scoping meeting.

Site Visit

The licensee and FERC staff will conduct a project site visit beginning at 1 p.m. on November 2, 2001. All interested individuals, organizations, and agencies are invited to attend. All participants should meet at the Rainbow Falls Hydropower Project parking lot on Mace Chasm Road, also known as Old State Road, in Ausable Chasm, NY. All participants are responsible for their own transportation to the site. Anyone with questions about the site visit should contact Ms. Carol Howland, NYSEG, at 607-762-8881.

Objectives

At the scoping meetings, staff will: (1) Summarize the environmental issues tentatively identified for analysis in the EA; (2) solicit from the meeting participants all available information, especially quantitative data, on the resources at issue; (3) encourage statements from experts and the public on issues that should be analyzed in the EA, including view points in opposition

to, or in support of, the staff's preliminary views; (4) determine the resource issues to be addressed in the EA; and (5) identify those issues that require a detailed analysis, as well as those issues that do not require a detailed analysis.

Procedures

The meetings will be recorded by a stenographer and will become part of the formal record of the Commission proceeding on the project. Individuals presenting statements at the meetings will be asked to sign in before the meeting starts and to clearly identify themselves for the record.

Individuals, organizations, and agencies with environmental expertise and concerns are encouraged to attend the meetings and to assist staff in defining and clarifying the issues to be addressed in the EA.

David P. Boergers,
Secretary.
