

Notices

Federal Register

Vol. 66, No. 157

Tuesday, August 14, 2001

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

Notice of Federal Invention Available for Licensing and Intent To Grant Exclusive License

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice of availability and intent.

SUMMARY: Notice is hereby given that the Federally owned invention disclosed in U.S. Patent Application Serial No. 09/819,992, "Process for the Deagglomeration and the Homogeneous Dispersion of Starch Particles," filed March 29, 2001, is available for licensing and that the U.S. Department of Agriculture, Agricultural Research Service, intends to grant to Sage V Foods of Los Angeles, California, an exclusive license to this invention.

DATES: Comments must be received no later than November 13, 2001.

ADDRESSES: Send comments to: USDA, ARS, Office of Technology Transfer, 5601 Sunnyside Avenue, Room 4-1158, Beltsville, Maryland 20705-5131.

FOR FURTHER INFORMATION CONTACT: June Blalock of the Office of Technology Transfer at the Beltsville address given above; telephone: 301-504-5257.

SUPPLEMENTARY INFORMATION: The Federal Government's patent rights to this invention are assigned to the United States of America, as represented by the Secretary of Agriculture. It is in the public interest to so license this invention as Sage V Foods has submitted a complete and sufficient application for a license. The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within ninety (90) days from the date of this published Notice, the Agricultural Research Service receives written evidence and argument which

establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Michael D. Ruff,

Assistant Administrator.

[Docket No. 00-070-3]

Mycogen c/o Dow and Pioneer; Availability of Determination of Nonregulated Status for Corn Genetically Engineered for Insect Resistance and Glufosinate Herbicide Tolerance

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public of our determination that the Mycogen Seeds c/o Dow AgroSciences LLC and Pioneer Hi-Bred International, Inc., corn line designated as line 1507, which has been genetically engineered for insect resistance and tolerance to the herbicide glufosinate, is no longer considered a regulated article under our regulations governing the introduction of certain genetically engineered organisms. Our determination is based on our evaluation of data submitted by Mycogen Seeds c/o Dow AgroSciences LLC and Pioneer Hi-Bred International, Inc., in their petition for a determination of nonregulated status and our analysis of other scientific data. This notice also announces the availability of our written determination document and a finding of no significant impact.

EFFECTIVE DATE: June 14, 2001.

ADDRESSES: You may read the determination, an environmental assessment and finding of no significant impact, and the petition in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

APHIS documents published in the **Federal Register**, and related information, including the names of organizations and individuals who have commented on APHIS dockets, are available on the Internet at <http://www.aphis.gov/ppd/rad/webrepor.html>.

FOR FURTHER INFORMATION CONTACT: Dr. Susan Koehler, Biotechnology Assessments Section, APHIS, 4700 River Road Unit 147, Riverdale, MD 20737-1236; (301) 734-4886. To obtain a copy of the determination or the environmental assessment and finding of no significant impact, contact Ms. Kay Peterson at (301) 734-4885; e-mail: kay.peterson@aphis.usda.gov.

SUPPLEMENTARY INFORMATION:

Background

On May 15, 2000, the Animal and Plant Health Inspection Service (APHIS) received a petition (APHIS Petition No. 00-136-01p) from Mycogen Seeds c/o Dow AgroSciences LLC (Mycogen c/o Dow), of Indianapolis, IN, and Pioneer Hi-Bred International, Inc. (Pioneer), of Johnston, IA, seeking a determination that a corn line designated as *Zea mays* L. cultivar line 1507 (line 1507), which has been genetically engineered for resistance to certain lepidopteran insect species and tolerance to the herbicide glufosinate, does not present a plant pest risk and, therefore, is not a regulated article under APHIS' regulations in 7 CFR part 340.

On September 6, 2000, APHIS published a notice in the **Federal Register** (65 FR 53976-53977, Docket No. 00-070-1) announcing that the Mycogen c/o Dow and Pioneer petition had been received and was available for public review. The notice also discussed the role of APHIS, the Environmental Protection Agency, and the Food and Drug Administration in regulating the subject corn line and food products derived from it. In the notice, APHIS solicited written comments from the public as to whether corn line 1507 posed a plant pest risk. The comments were to have been received by APHIS on or before November 6, 2000. APHIS received no comments on the subject petition during the designated 60-day comment period.

APHIS then published a notice in the **Federal Register** on April 18, 2001 (66 FR 19915-19916, Docket No. 00-070-2), announcing the availability for public
