Tee Jays Manufacturing Co., Inc.; Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) as amended by the Omnibus Trade and Competitiveness Act of 1988 (P.L. 100-418), the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is determined that all of the requirements have been met.

The investigation was initiated in response to a petition received on January 18, 2001, filed on behalf of workers at Tee Jays Manufacturing Co., Inc., Florence, Alabama (Plants 1, 5, 6, 14, 15, and 16) and Elgin, Alabama (Plant 9). The workers are engaged in the production of tee shirts and sweat shirts. In Florence, Alabama, petitioning plants include Plant 1 (sewing and cutting), Plant 5, (warehousing and administration), Plant 6 (sewing), Plant 14 (dyeing and sewing), Plant 15 (warehousing) and Plant 16 (sewing). In Elgin, the petitioning facility is Plant 9 (sewing).

Investigation findings revealed that production and employment at the Florence and Elgin, Alabama facilities have declined during the relevant period. The company has increased its

imports of tee shirts and sweat shirts, causing separations at the subject plants.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with tee shirts and sweat shirts manufactured at Tee Jays Manufacturing Co., Inc., Florence and Elgin, Alabama, contributed importantly to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

“All workers of Tee Jays Manufacturing Co., Inc., Florence, Alabama (Plants 1, 5, 6, 14, 15, and 16) and Elgin, Alabama (Plant 9), who became totally or partially separated from employment on or after January 3, 2000, through two years from the date of certification are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.”

Signed in Washington, DC this 8th day of February, 2001.

Linda G. Poole,

Certifying Officer, Division of Trade Adjustment Assistance.

York International Unitary Products Group, Elyria, OH; Notice of Negative Determination Regarding Application for Reconsideration

By application dated March 5, 2001, petitioners requested administrative reconsideration of the Department's negative determination regarding eligibility to apply for Trade Adjustment Assistance (TAA), applicable to workers and former workers of the subject firm. The denial notice was signed on February 20, 2001, and published in the *Federal Register* on April 5, 2001 (66 FR 18117).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) if it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or

(3) if in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

The investigation findings for the February 20 denial of TAA for workers of York International, producing residential and light commercial heating and air conditioning products in Elyria, Ohio showed that criterion (3) of the group eligibility requirements of section 222 of the Trade Act was not met. There were no company imports of the above-mentioned products.

The petitioner asserts that when the subject firm plant closes the production of evaporator coils and air handling units will be transferred to Monterrey, Mexico. The petition investigation revealed that the company does not import products like or directly competitive with that which was produced in Elyria, Ohio. While there are company plans to relocate the production of evaporator coils and air handling units from its Elyria, Ohio facility to Monterrey, Mexico until such time as this occurs and the products are imported back into the United States, criterion (3) is not met.

The workers of York International may wish to consider filing a petition

for NAFTA-Transitional Adjustment Assistance.

Conclusion

After review of the application and investigation findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed in Washington, DC this 2nd day of August, 2001.

Director, Division of Trade Adjustment Assistance.
