

*Alternative 4, NCCP/HCP Alternative Based on Other Land Use Scenarios*

Formulation of alternative subregional conservation plans and habitat reserve configurations designed to comply with the requirements of Section 10(a) by assuring the long-term value of coastal sage scrub and other major habitat types on a subregional level through the same four general measures listed under Alternative 3.

**Other Governmental Actions**

The NCCP/HCP is being prepared concurrently and coordinated with the joint preparation by the U.S. Army Corps of Engineers and CDFG of a Special Area Management Plan (SAMP) and Master Streambed Alteration Agreement (MSAA) for the San Juan Creek and western San Mateo Creek watersheds. These watersheds cover most of the South NCCP Subregion. In addition to the concurrent SAMP/MSAA process, the County and Rancho Mission Viejo, the owner of the largest undeveloped property in the subregion, will be proceeding with consideration of amendments to the County General Plan and Zoning Code for that portion of the subregion owned by Rancho Mission Viejo. The SAMP/MSAA will involve the preparation of a concurrent joint programmatic EIR/EIS and the General Plan/Zoning amendment programs will involve the preparation of an EIR that will be distributed for review during the NCCP/HCP public planning process. The County of Orange will prepare and publish a separate Notice of Preparation for the General Plan Amendment and Zone Change EIR.

**Service Scoping**

We invite comments from all interested parties to ensure that the full range of issues related to the permit requests are addressed and that all significant issues are identified. We will conduct environmental review of the permit applications in accordance with the requirements of the National Environmental Policy Act of 1969 as amended (42 U.S.C. 4321 et seq.), its implementing regulations (40 CFR parts 1500 through 1508), and with other appropriate Federal laws and regulations, policies, and procedures of the Service for compliance with those regulations. We expect a draft EIR/EIS for the South Subregion NCCP/HCP to be available for public review in Fall 2002.

Dated: August 16, 2001.
