Synopsis

TRS is required by Title IV of the Americans with Disabilities Act (Section 225 of the Communications Act of 1934). TRS now utilizes a variety of services to facilitate telephone communication between persons with hearing or speech disabilities and persons who use voice telephones. Relay services between TTY and voice users utilize a relay operator, called a Communications Assistant (CA), to read what the TTY user types to a voice telephone user, and to type responses back to the TTY user throughout the duration of a telephone call. Speech-to-speech (STS) relay utilizes CAs trained in understanding certain speech patterns to relay conversations for people with speech disabilities. Video relay services (VRS) utilize CAs skilled in sign language to relay conversations for users of American Sign Language. The Forum will provide an opportunity for a full exchange of ideas on state and nationwide outreach efforts related to TRS. In March 2000, the Commission issued a Report and Order and Further Notice of Proposed Rulemaking (FNPRM), In the Matter of Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities, CC Docket 98-67, which tentatively concluded that TRS service could be improved with a nationwide awareness campaign that reaches all potential TRS users, including consumers with disabilities, senior citizens who have lost hearing late in life, potential STS users, and the general public. The FNPRM asked for comment about the extent to which a national outreach effort should be supported by the interstate TRS fund and whether the interstate TRS fund administrator should administer the funding for such educational outreach programs. The FNPRM further proposed to amend the mission of the Interstate TRS Advisory Council to include establishing guidelines and a procedure to fund a coordinated national outreach campaign. In August 2000, the Commission also adopted a Second Report and Order in its proceeding on The Use of N11 Codes and Other Abbreviated Dialing Arrangements, CC Docket 92-105, which required common carriers to provide access to all relay services via the 711 dialing code by October 1, 2001. Among other things, that Order directed each common carrier providing telephone voice

transmission services to conduct, not later than October 1, 2001, ongoing education and outreach programs that publicize the availability of 711 access to TRS, in a manner reasonably designed to reach the largest number of consumers possible. To supplement and refresh the record initiated with the March FNPRM, at the Forum we will seek to further identify the guidelines and procedures necessary to fund a coordinated nationwide outreach program. In addition, information will be shared to facilitate ongoing efforts to comply with the August Report and Order mandating 711 outreach. While time constraints limit the number of individuals who may make in-person presentations at the Forum, we encourage all interested individuals to submit written *ex parte* comments, by October 20, 2001, identifying proposed national outreach guidelines and procedures. Written *ex parte* comments will aid us in our decision-making with regard to identifying the best means of achieving nationwide outreach on TRS.

Consumer Information Bureau.

Chief, Disabilities Rights Office.
