7 CFR Part 1219

[Docket Nos. FV-01-705 EXT and FV-01-706 EXT]

Subpart A—Hass Avocado Promotion, Research, and Information Order and Subpart B—Referendum Procedures; Extension of Comment Periods

AGENCY: Agricultural Marketing Service, USDA.

FOR FURTHER INFORMATION CONTACT: Julie A. Morin, Research and Promotion Branch, Fruit and Vegetable Programs, AMS, USDA, Stop 0244, 1400 Independence Avenue, SW., Room 2535 South Building, Washington, DC 20250-0244; telephone (202) 720-9915 or fax (202) 205-2800.

SUPPLEMENTARY INFORMATION: On July 13, 2001, a proposed rule containing proposals for the Hass Avocado Promotion, Research, and Information Order (Order) (66 FR 36870) and a proposed rule containing referendum procedures for the program (66 FR 36886) were published in the **Federal Register**.

Under the proposed Order, producers and importers would pay an assessment to the proposed Hass Avocado Board (Board). Assessments collected under the program, at the initial rate of 2.5 cents a pound, are expected to generate \$10 million annually. The Board would use the assessments collected to conduct a promotion, research, and information program to maintain, develop, and expand markets for Hass avocados in the United States. The proposed referendum procedures would be used for a referendum to determine whether producers and importers favor implementation of the Order. The comment periods on both proposed rules end on August 27, 2001.

Requests that additional time be provided for interested persons to comment were received from Ambassador James Bolger of New Zealand on August 3, 2001; Ambassador Andres Bianchi of Chile on August 8, 2001; Senators Joseph R. Biden, Jr., and Thomas R. Carper and Congressman Michael N. Castle on August 8, 2001; Senator Richard G. Lugar on August 15, 2001, and Congressmen Rob Andrews and Robert Menendez on August 15, 2001. The New Zealand Ambassador requested the extension due to the complexity of the rule. The other parties requested the extension due to the complexity of the rule and the recent Supreme Court decision on the mushroom program (*United States et al.*

v. United Foods, Inc.; 533 U.S. ___ (2001); 69 U.S.L.W. 4543, June 25, 2001).

After reviewing the situation, the Department is extending the comment periods for 15 additional days. This will provide interested persons a total of 60 days to review the proposed rules, perform a more complete analysis, and submit any written comments.

This delay should not substantially add to the time required to complete this rulemaking action. Accordingly, comments will be accepted until September 12, 2001. This notice is issued under the Hass Avocado Promotion, Research, and Consumer Information Act, (7 U.S.C. 7801-7813), enacted on October 23, 2000.

Dated: August 23, 2001.

Robert C. Keeney,

Acting Administrator, Agricultural Marketing Service.

SUPPLEMENTARY INFORMATION: On May 2001, the National Energy Policy Development Group (NEPD Group) reported a National Energy Policy to the President. One of the recommendations called for the President to direct the Secretary of Energy to take steps to improve the energy efficiency of appliances. The recommendation included supporting the existing appliance standards program, setting higher standards where technologically feasible and economically justified, and expanding the scope of the program to include additional consumer products and commercial and industrial equipment.

The main focus of the meeting will be to discuss the process that DOE should use in setting priorities for the existing program and any possible expansion of the scope of the program to include additional products and equipment. The Department is interested in receiving comments on its proposed priorities for current standards rulemakings and suggestions on the criteria it should use to reach decisions on the possible expansion of the program. The Department is also interested in receiving comments on the factors, data and analysis methods that might be used by DOE in its decision making process. Additional products and equipment could be addressed through voluntary programs, consumer education, legislation and/or regulation. Indeed, there are bills being drafted and introduced in the Congress which would direct DOE to address additional products and equipment. Thus, the timing of this meeting would allow DOE to do some early planning in anticipation of a number of possible new activities.

Today's notice, the subject lists of current rulemakings and possible new products and equipment, and the planned meeting mark the next steps in seeking stakeholder input into the rulemaking process. The lists can be found on the following web-site: http://www.eren.doe.gov/buildings/codes_standards/index.htm.

The meeting will be conducted in an informal, conference style. There shall be no discussion of proprietary

information, costs or prices, market shares, or other commercial matters regulated by the U.S. antitrust laws.

After the meeting and expiration of the period for submitting written statements, the Department will begin consideration of the comments received.

If you would like to participate in the meeting, receive meeting materials, or be added to the DOE mailing list to receive future notices and information regarding the energy conservation program for consumer products and commercial and industrial equipment, please contact Ms. Brenda Edwards-Jones at (202) 586-2945.

Issued in Washington, DC, on August 22, 2001.

David K. Garman,

Assistant Secretary for Energy Efficiency and Renewable Energy.
