NATIONAL SCIENCE FOUNDATION

Notice of Intent To Seek Approval To Carry Out a New Information Collection

AGENCY: National Science Foundation.

ACTION: Notice and request for comments.

SUMMARY: The National Science Foundation (NSF) is announcing plans to request clearance of this collection. In accordance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting that OMB approve clearance of this collection for three years.

DATES: Written comments on this notice must be received by November 5, 2001 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

FOR ADDITIONAL INFORMATION OR

COMMENTS: Contact Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230; telephone 703-292-7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday. You also may obtain a copy of the data collection instrument and instructions from Ms. Plimpton.

SUPPLEMENTARY INFORMATION:

Title of Collection: "eRecruitment" System.

OMB Number: 3145-NEW.

Expiration Date of Approval: Not applicable.

Type of Request: Intent to seek approval to carry out a new information collection.

Abstract

National Science Foundation (NSF), Division of Human Resources (HRM), as part of its Workforce Planning efforts, is reengineering its business processes. Part of this reengineering effort is devoted to making the application and referral process for both internal and external applicants easier to use, more efficient and timely. Applicants will apply on-line using a web-based resume, which will prompt them to provide pertinent personal data necessary to apply for a position.

Proposed Project

Use of the Information

The information will be used by NSF to provide applicants with the ability to apply electronically for NSF positions and receive notification as to their qualifications, application dispensation and to request to be notified of future vacancies for which they may qualify.

In order to apply for vacancies, applicants will be required to submit certain data in order to receive consideration. Users only need access to the Internet for this system to work. This information will be used to determine which applicants are best qualified for a position, based on applicant responses to a series of job related "yes/no" or "multiple choice" questions. The resume portion requires applicants to provide the same information they would provide were they were submitting a paper OF-612. The obvious benefit being that the applicant may do so on-line, 24 hours a day/seven days a week and receive electronic notification about the status of their application or information on other vacancies for which they may qualify. Staff members of the Human Resource Division and the selecting official(s) for specific positions for which applicants apply are the only ones privy to the applicant data. The most significant data is not the applicant personal data such as address or phone number but rather their description of their work experience and their corresponding responses to those questions, which determine their overall rating, ranking, and referral to the selecting official.

Estimate of Burden

Public reporting burden for this collection of information is estimated to average less than 30 to 45 minutes to create the on line resume and

potentially less than 10 to 15 minutes to apply for jobs on-line.

There is no financial burden on the applicant, in fact this should relieve much of the burden the current paper-intensive process puts on applicants.

Respondents

Individuals. Approximately 4800 applicants apply for NSF vacancies a year. This number could potentially double based on evidence from other agencies that use electronic recruitment systems; the estimated number of responses is 6500.

Estimated Number of Responses

Approximately 25 responses per job opening.

Estimated Total Annual Burden on Respondents

Approximately 45 minutes per respondent total time is all that will be needed to complete the on-line application, for a total of 4,875 hours annually.

Frequency of Responses

Applicants need only complete the resume one time, and they may use that resume to apply as often as they wish for any NSF job opening.

Comments

Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: August 29, 2001.

Reports Clearance Officer.
