

EPA is taking action to have the requirements of this Information Collection Request, (40 CFR part 61, subpart V, OMB Control Number 2060-0068, EPA ICR Number 1153.07), authorized by OMB as an Information Collection option within the Information Collection Request for the Consolidated Federal Air Rule for the Synthetic Organic Chemical Manufacturing Industry, (OMB Control Number 2060-0443, EPA ICR Number 1854.02). When approved by OMB, the separate Information Collection Request requirements under OMB Control Number 2060-0068, EPA ICR Number 1153.07 will not be necessary.

Owners or operators of the affected facilities described must make one-time-only notifications including: notification of any physical or operational change to an existing facility which may increase the regulated pollutant emission rate, notification of the initial performance test, including information necessary to determine the conditions of the performance test, and performance test measurements and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports and records are required, in general, of all sources subject to the NESHAPs.

Monitoring requirements specific to the Equipment Leaks (Fugitive Emission Sources) NESHAP provides information on leak detection. Owners or operators are also required to submit semiannual reports of the number of valves, pumps, and compressors for which leaks were detected, and explanations for any leak repair delays.

Any owner or operator subject to the provisions of this part shall maintain a file of these reports and retain the file for at least two years following the date of such records.

Approximately 75 sources are currently subject to the standard, and no new sources are expected in the next three years. However, approximately two modified, reconstructed, or new process units are expected per year. The number of affected sources is expected to decline during the next three years. Therefore, the number of affected sources by this standard will remain unchanged from the previous submittal.

All reports are sent to the delegated State or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA Regional Office.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on February 01, 2001, (66 FR 8588) and no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 561 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/operators of equipment sources operating in volatile hazardous air pollutant (VHAP) service.

Estimated Number of Respondents: 21.

Frequency of Response: Semi-annually.

Estimated Total Annual Hour Burden: 23,558.

Estimated Total Annualized Capital, O&M Cost Burden: \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1153.07 and OMB Control No.2060-0068 in any correspondence.

Dated: August 24, 2001.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Standards of Performance for New Stationary Sources; Rubber Tire Manufacturing

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Standards of Performance for New Stationary Sources; Rubber Tire Manufacturing, Subpart BBB, OMB Control Number 2060-0156, expiration date September 30, 2001. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before October 9, 2001.

ADDRESSES: Send comments, referencing EPA ICR No. 1158.07 and OMB Control No. 2060-0156, to the following addresses: Susan Auby, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822), 1200 Pennsylvania Avenue, NW., Washington, DC 20460; and to Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Susan Auby at EPA by phone at (202) 260-4901, by E-mail at Auby.Susan@epamail.epa.gov, or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1158.07. For technical questions about the ICR contact Maria Malavé at (202) 564-7027 or via E-mail to Malave.Maria@EPAMAIL.EPA.Gov.

SUPPLEMENTARY INFORMATION:

Title: Standards of Performance for New Stationary Sources; Rubber Tire Manufacturing, EPA ICR No. 1158.07; OMB Control No. 2060-0156, expiring September 30, 2001. This is a request for extension of a currently approved collection..

Abstract: NSPS Subpart BBB applies to affected facilities in rubber tire manufacturing plants that commence construction, modification or reconstruction after January 20, 1983.

The affected facilities include: Each underthread cementing operation, each sidewall cementing operation, each tread end cementing operation, each bead cementing operation, each green tire spraying operation, each Michelin-A operation, each Michelin-B operation, each Michelin-C automatic operation. The rule establishes standards for volatile organic compounds (VOCs) use and emission limits.

Monitoring, recordkeeping and reporting requirements allow the regulatory agencies to determine compliance with the standard. One time only reports are required to identify the affected facilities and the compliance method used. Notification of Method 25 performance is also required. Annual reports of Method 24 results to verify VOC content of water-based sprays would be required.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published in the **Federal Register** on February 1, 2001, (66 FR 8588). No comments were received.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average about 167 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/operators of rubber tire manufacturing plants.

Estimated Number of Respondents: 43.

Frequency of Response: Annual and semiannual when a source has excess emissions.

Estimated Total Annual Hour Burden: 13,151 hours.

Estimated Total Annualized Capital, O&M Cost Burden: \$17,200.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 1158.07 and OMB Control No. 2060-0156 in any correspondence. .

Dated: August 27, 2001.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Underground Storage Tanks: Technical and Financial Requirements, and State Program Approval Procedures

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq., this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Underground Storage Tanks, Technical and Financial Requirements, and State Program Approval Procedures, OMB Control Number 2050-0068, which expires on September 30, 2001. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before October 9, 2001.

ADDRESSES: Send comments, referencing EPA ICR No. 1360.06 and OMB Control No. 2050-0068, to the following addresses: Sandy Farmer, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822), 1200 Pennsylvania Avenue, NW., Washington, DC 20460; and to Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer

for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Sandy Farmer at EPA by phone at (202) 260-2740, by E-mail at Farmer.Sandy@epa.gov, or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1360.06. For technical questions about the ICR contact Sammy Ng at the Office of Underground Storage Tanks (OUST) by phone at (703) 603-9900 or by E-mail at Ng.Sammy@epa.gov.

SUPPLEMENTARY INFORMATION: *Title:* Underground Storage Tanks, Technical and Financial Requirements and State Program Approval Procedures, OMB Control Number 2050-0068, EPA ICR Number 1360.06, expiring on September 30, 2001. This is a request for extension of a currently approved collection.

Abstract: Subtitle I of the Resource Conservation and Recovery Act (RCRA), as amended, requires that the EPA develop standards for Underground Storage Tanks (UST) systems as may be necessary to protect human health and the environment, and procedures for approving State programs in lieu of the Federal program. EPA promulgated technical and financial requirements for owners and operators of USTs at 40 CFR part 280, and State program approval procedures at 40 CFR part 281. This ICR is a comprehensive presentation of all information collection requirements contained at 40 CFR parts 280 and 281. The data collected under 40 CFR part 280 are used by the owners and operators and/or EPA or the implementing agency to monitor results of testing, inspections, and operations of UST systems, as well as to demonstrate compliance with regulations. EPA believes strongly that, if the minimum requirements specified under the regulations are not met, neither the facilities nor EPA can ensure that UST systems are being managed in a manner protective of human health and the environment. The data collected under 40 CFR part 281 are used by EPA to determine whether to approve a State program. Before granting approval, EPA must determine that programs will be no less stringent than the Federal program and contain adequate enforcement mechanisms.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection
