Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: 2002 Economic Census, Commodity Flow Survey.

Form Number(s): CFS-1000.

Agency Approval Number: None.

Type of Request: New collection.

Burden: 400,000 hours.

Number of Respondents: 50,000.

Avg Hours Per Response: 2 hours.

Needs and Uses: The 2002

Commodity Flow Survey, a component of the Census Bureau's 2002 Economic Census, is a cooperative effort between the Census Bureau and the Department of Transportation's Bureau of Transportation Statistics. The survey produces key information about the transportation of freight in the United States. The Commodity Flow Survey is the only source of nationwide data on the movement of goods from origin to destination by all modes of transportation and for intermodal combinations. This survey provides a crucial set of statistics on the value, weight, mode, and distance of commodities shipped by mining, manufacturing, wholesale, and selected retail establishments. The Census Bureau will publish these statistics at the national, Census Region, Census Division, state, and selected Metropolitan Area levels. As in the 1997 Commodity Flow Survey, this survey also identifies shipments that are exports and/or shipments of hazardous materials.

Federal, state, and local government agencies spend over \$100 billion annually on transportation programs. The Commodity Flow Survey provides data that are critical to these agencies in making a wide range of transportation investment decisions for developing and maintaining an efficient transportation infrastructure that supports economic growth and competitiveness. Numerous other Federal, state, and local agencies require the Commodity Flow Survey data on transportation flows, as they impact the domestic economy in many ways. Transportation planners require the periodic benchmarks provided by a continuing Commodity Flow Survey to evaluate and respond to ongoing geographic shifts in production and distribution centers, as well as policies such as just in time delivery.

The 2002 Commodity Flow Survey will be a mail-out/mail-back sample survey of 50,000 business establishments. Respondents will be asked to provide four reports each over the course of 2002. This reflects a reduction of 50 percent in sample size from the 1997 Commodity Flow Survey as a result of funding limitations. If full funding were to become available, the sample size would be increased to 100,000 establishments.

Affected Public: Businesses or other for-profit.

Frequency: Data will be collected quarterly over the course of 2002. The collection is conducted every five years as part of the quinquennial economic census.

Respondent's Obligation: Mandatory.

Legal Authority: Title 13 U.S.C., Sections 131, 193 and 224.

OMB Desk Officer: Susan Schechter, (202) 395-5103.

Copies of the above information collection proposal can be obtained by calling or writing Madeleine Clayton, Departmental Paperwork Clearance Officer, (202) 482-3129, Department of Commerce, room 6086, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at mclayton@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Susan Schechter, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

Dated: August 30, 2001.

Antifriction Bearings (Other Than Tapered Roller Bearings) and Parts Thereof from Germany; Amended Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, United States Department of Commerce.

ACTION: Notice of amended final results of administrative review

SUMMARY: On July 12, 2001, the Department of Commerce published the final results of administrative reviews of the antidumping duty orders on antifriction bearings (other than tapered roller bearings) and parts thereof from France, Germany, Italy, Japan, Sweden, and the United Kingdom. Based on our

analysis of a comment received, we are amending the final results of reviews of the antidumping duty order covering cylindrical roller bearings from Germany with respect to merchandise produced by INA Wälzlager Schaeffler oHG.

EFFECTIVE DATE: September 6, 2001.

FOR FURTHER INFORMATION CONTACT:

Hermes Pinilla or Richard Rimlinger, AD/CVD Enforcement, Group I, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone (202) 482–3477 or (202) 482–4477, respectively.

SUPPLEMENTARY INFORMATION:

Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act), are references to the provisions in effect as of January 1, 1995. In addition, unless otherwise indicated, all citations to the Department of Commerce's (the Department's) regulations are to 19 CFR part 351 (2000).

Background

On July 12, 2001, the Department published the final results of administrative reviews of the antidumping duty orders on antifriction bearings (other than tapered roller bearings) and parts thereof (AFBs) from France, Germany, Italy, Japan, Sweden, and the United Kingdom (66 FR 36551). We invited interested parties to comment on our final results. Based on a timely comment we received from a respondent, INA Wälzlager Schaeffler oHG (INA), we are now amending the final results of review with respect to the order covering cylindrical roller bearings (CRBs) from Germany. The period of review (POR) for this order is May 1, 1999, through December 31, 1999.

On July 11, 2001, we received a letter from INA stating that it had reviewed the Department's disclosure materials and found a ministerial error. Specifically, INA alleged that the Department in its final results inadvertently used the wrong variable in its computer program to identify whether INA's home-market customers are affiliated or unaffiliated. We reviewed INA's allegation and agree with INA; therefore, we are amending the final results of review for CRBs from Germany. For more information, see analysis memorandum from analyst to file dated August 9, 2001.
