

*Need and Use of the Information:* FNS will collect information from State agencies on how the various Food Stamp Program implementation options will be determined. The information collected will be used by FNS to establish quality control reviews, standards and self-employment costs.

*Description of Respondents:* State, Local or Tribal Government.

*Number of Respondents:* 53.

*Frequency of Responses:* Recordkeeping; Reporting; On occasion.

*Total Burden Hours:* 256.

#### **Food and Nutrition Service**

*Title:* Food Stamp Program: Grants to Improve Food Stamp Program Access.

*OMB Control Number:* 0584-0506.

*Summary of Collection:* In January 2001, the Food and Nutrition Service (FNS) awarded grants of up to 300,000 to 14 non-food stamp governmental authorities, nonprofit local organizations, institutions of higher learning, foundations and other nonprofit organizations. To receive a grant, each interested competitor had to provide a proposal to USDA on the projects to be undertaken. Each proposal was competitively ranked and the top ranked proposals were awarded grants. USDA is seeking information from the grantees on the outcome of the projects funded, such as a description of the projects, funding levels, staffing successes, failures, and lesson learned from the projects.

*Need and Use of the Information:* FNS will collect information in three phases: the application process; ongoing quarterly reports; and a final report. FNS will use the information from the grantees on the outcome of the projects funded to consolidate a report of success stories, and lessons learned from the projects. The information will be used to inform FNS about useful strategies that promote access and are successful in increasing participants of eligible persons in the Food Stamp Program.

*Description of Respondents:* State, Local or Tribal Government.

*Number of Respondents:* 250.

*Frequency of Responses:* Reporting; Quarterly; Annually.

*Total Burden Hours:* 21,008.

#### **Forest Service**

*Title:* Health Screen Questionnaire.

*OMB Control Number:* 0596-NEW.

*Summary of Collection:* The Protection Act of 1922 (16 U.S.C. 594) authorizes the Forest Service to fight fires on National Forest System lands. Individuals must complete the Health Screening Questionnaire (HSQ) when seeking employment as a new firefighter

with the Forest Service or recertification as a Forest Service firefighter. Potential applicants are to complete forms FS-5100-30 and FS-5100-31, which are necessary to obtain their health screening information.

*Need and Use of the Information:* FS will collect information to determine whether an individual being considered for a position in Wildland Firefighting can carry out those duties in a manner that will not place the candidate unduly at risk due to inadequate physical fitness and health. If the information is not collected, the Government's liability risk is high, special needs of one individual may not be known, or the screening of an applicant's physical suitability would be greatly inhibited.

*Description of Respondents:* Individuals or households; Federal Government.

*Number of Respondents:* 15,000.

*Frequency of Responses:* Reporting; Annually.

*Total Burden Hours:* 1,250.

#### **Agricultural Marketing Service**

*Title:* Customer Service Survey for USDA—Donated Food Products.

*OMB Control Number:* 0581-0182.

*Summary of Collection:* Each year the Agricultural Marketing Service (AMS) procures about \$700 million dollars of poultry, livestock, fruit, and vegetable products for the school lunch and other domestic feeding programs under authority of 7 CFR 250, Regulations for the Donation of Food for Use in the United States, its Territories and possessions and areas under its jurisdiction. To maintain and improve the quality of these products, AMS has sought to make this process more customer-driven and therefore is seeking opinions from the users of these products. AMS will use AMS-11, "Customer Opinion Postcard," to collect information. Customers that use USDA-procured commodities to prepare and serve meals, retrieve these cards from the boxes and use them to rate their perception of product flavor, texture, and appearance as well as overall satisfaction.

*Need and Use of the Information:* AMS will collect information on the product type, production lot, and identify the location and type of facility, which the product was served. USDA program managers will use survey responses to maintain and improve product quality through the revision of USDA commodity specifications and follow-up action with producers of designated production lots.

*Description of Respondents:* State, Local or Tribal Government; Not-for-profit institutions.

*Number of Respondents:* 8,400.

*Frequency of Responses:* Reporting; On occasion.

*Total Burden Hours:* 700.

Veterinary Services' Emergency Programs is charged with coordinating USDA's role and responsibilities in planning for and responding to emerging or exotic animal diseases. ## **DEPARTMENT OF AGRICULTURE**

### **Office of the Secretary**

#### **Privacy Act of 1974; Revision of Systems of Records and Proposed New Routine Uses**

**AGENCY:** Office of the Secretary, USDA.

**ACTION:** Notice of revision of privacy act systems of records and proposed new routine uses.

**SUMMARY:** Notice is hereby given that the United States Department of Agriculture is proposing to change the (USDA) Privacy Act Systems of Records maintained by the Farm Service Agency (FSA) as follows: A new routine use would be added to two Privacy Act systems of records maintained by FSA.

**EFFECTIVE DATE:** The proposed routine uses will become effective November 9, 2001 unless modified by a subsequent notice to incorporate public comments. Comments must be received by October 10, 2001 to be assured consideration.

**ADDRESSES:** Interested persons may submit written comments to Diane Flores Korwin, Freedom of Information and Privacy Act (FOIA/PA) Specialist, Public Affairs Staff, Farm Service Agency, U.S. Department of Agriculture, Public Affairs, STOP 0506, 1400 Independence Avenue, SW., Washington, DC 20250-0506; telephone 202-720-5534. The public may inspect comments received on this notice Monday-Friday, except holidays, between 8:15 a.m. and 4:45 p.m. in Room 3625 at the address listed above.

**FOR FURTHER INFORMATION CONTACT:** Diane Flores Korwin, telephone 202-720-5534.

**SUPPLEMENTARY INFORMATION:** This notice concerns two of the Privacy Act systems of records maintained by FSA; USDA/FSA-2, "Farm Records File" and USDA/FSA-14, "Applicant/Borrower File." The proposed revisions would provide disclosure of certain records in these files to State-certified or State-licensed appraisers, and to employees of other Federal agencies who are qualified to conduct real estate appraisals.

Disclosure of this information to State-certified or State-licensed appraisers, and to employees of other Federal agencies who are qualified to conduct real estate appraisals is a use of the information compatible with the specific administrative purposes for which the information was collected. Limited disclosure is clearly within FSA's mandate to promote a viable agricultural economy, and is essential for effective implementation of appraisal standards established under of the Financial Institutions Reform Recovery and Enforcement Act (FIRREA) of 1989, 12, U.S.C. ch. 34A. Release of this producer and farm information relates to effective analyses of comparable properties and determinations of capitalization rates in connection with appraisers' valuations of properties using the comparable sales and income approaches.

Appraisers' ethical and other standards and general practices promulgated pursuant to the FIRREA

provide safeguards against further dissemination of the information provided to persons outside USDA. Appraisals are confidential and may not be released to other parties without the approval of the appraiser and the client. Appraisal reports identify properties, but do not identify the owner by name, and those appraisers who violate the ethical standards are subject to discipline by State certification boards.

The FSA also publishes information regarding acreage allotments and marketing quotas for farms raising tobacco and peanuts as required by law. However, information concerning the acreage, yield, storage, and marketing by farmers engaged in production of tobacco and peanuts will only be released in a manner that does not identify the information furnished by individual producers. 7 U.S.C. 1373 prohibits release of this information in a form identifiable to an individual producer.

Pursuant to the Privacy Act, 5 U.S.C. 552a, USDA hereby takes the following action:

**(1) USDA/FSA-2, "Farm Records File"**

This system is being amended to add a routine use allowing the limited disclosure of Producer and Farm Information to State-certified or State-licensed appraisers and employees of Federal agencies other than USDA who are qualified to conduct real estate appraisals.

The specific information to be disclosed to the appraiser is:

- Production Flexibility Contract Acres
- Payment yields
- Agricultural use acres and cropland acres
- Copies of aerial photography
- Conservation Reserve Program (CRP) acres
- Highly erodible land (HEL) delineations
- Wetland classifications

Notwithstanding the foregoing, USDA will not release to appraisers information indicating the acreage, yield, storage and marketing of peanuts or tobacco if that information was requested by USDA and is necessary for the administration of Title III of the Agricultural Adjustment Act of 1938, 7 U.S.C. § 1361 *et seq.*, unless the information to be released is in an aggregate form that does not identify the information furnished by any person. FSA will continue to make available for public inspection information regarding acreage allotments and farm marketing quotas established for farms as required by law.

**(2) USDA/FSA-14, "Applicant/Borrower File"**

This system is being amended to add a routine use allowing the limited disclosure of Producer and Farm Information to state-certified or state-licensed appraisers and employees of Federal agencies other than USDA who are qualified to conduct real estate appraisals.

The specific information to be disclosed to the appraiser is:

- Production Flexibility Contract Acres
- Payment yields
- Agricultural use acres and cropland acres
- Copies of aerial photography
- Conservation Reserve Program (CRP) acres
- Highly erodible land (HEL) delineations
- Wetland classifications

Notwithstanding the foregoing, USDA will not release to appraisers information indicating the acreage, yield, storage and marketing of peanuts or tobacco if that information was requested by USDA and is necessary for the administration of Title III of the Agricultural Adjustment Act of 1938, 7 U.S.C. 1361 *et seq.*, unless the information to be released is in an aggregate form that does not identify the information furnished by any person. FSA will continue to make available for public inspection, information regarding acreage allotments and farm marketing quotas established for farms, as required by law.

(7) To financial consultants, advisors, lending institutions, packagers, agents, and private or commercial credit sources when FSA determines such referral is appropriate to encourage the borrowers to refinance their FSA indebtedness as required by Title V of the Housing Act of 1949, as amended (42 U.S.C. 1471). The disclosure may include name, home address, and financial information for selected borrowers;

(12) To private attorneys under contract with either FSA or with the Department of Justice for the purpose of foreclosure and possession actions and collection of past due accounts in connection with FSA loans;

(13) To the Department of Justice when: (a) The agency or any component thereof; or (b) any employee of the agency in his or her official capacity where the Department of Justice has agreed to represent the employee; or (c) the United States Government is a party to litigation or has an interest in such litigation, and by careful review, the agency determines that the records are both relevant and necessary to the litigation and the use of such records by the Department of Justice is therefore deemed by the agency to be for a purpose that is compatible with the purpose for which the agency collected the records;

(14) To the Department of Housing and Urban Development (HUD) as a record of location utilized by Federal agencies for an automatic credit prescreening system. The disclosure may include names, home addresses, social security numbers, and financial information;

FSA will continue to make available for public inspection information regarding acreage allotments and farm marketing quotas established for farms as required by law.
