

Proposals may also be reviewed by the Office of the Legal Advisor or by other offices of the U.S. Department of State. In addition, U.S. Embassy officers may provide advisory comment. Funding decisions will be made at the discretion of the Department of State's Acting Assistant Secretary for Educational and Cultural Affairs. Final technical authority for assistance awards (grants or cooperative agreements) will reside with the Bureau's grants officer.

#### Review Criteria

All reviewers will use the criteria below to reach funding recommendations and decisions. Technically eligible applications will be reviewed competitively according to these criteria, which are not rank-ordered or weighted.

(1) *Broad and Enduring Significance of Institutional Objectives*: Project objectives should have significant and ongoing results for the participating institutions and for their surrounding societies or communities by providing a deepened understanding of critical issues in one or more of the eligible fields. Project objectives should relate clearly to institutional and societal needs, including the transition of the New Independent States to democratic systems based on market economies.

(2) *Creativity and Feasibility of Strategy to Achieve Project Objectives*: Strategies to achieve project objectives should be feasible and realistic within the projected budget and timeframe. These strategies should utilize and reinforce exchange activities creatively to ensure an efficient use of program resources.

(3) *Institutional Commitment to Cooperation*: Proposals should demonstrate significant understanding by each institution of its own needs and capacities and of the needs and capacities of its proposed partner(s), together with a strong commitment by the partner institutions, during and after the period of grant activity, to cooperate with one another in the mutual pursuit of institutional objectives.

(4) *Project Evaluation*: Proposals should outline a methodology for determining the degree to which a project meets its objectives, both while the project is underway and at its conclusion. The final project evaluation should include an external component and should provide observations about the project's influence within the participating institutions as well as their surrounding communities or societies.

(5) *Cost-effectiveness*: Administrative and program costs should be reasonable and appropriate with cost-sharing

provided by all participating institutions within the context of their respective capacities. We view cost-sharing as a reflection of institutional commitment to the project. Although indirect costs are eligible for inclusion as cost-sharing by the applicant, contributions should not be limited to indirect costs.

(6) *Support of Diversity*: Proposals should demonstrate substantive support of the Bureau's policy on diversity by explaining how issues of diversity are included in project objectives for all institutional partners. Issues resulting from differences of race, ethnicity, gender, religion, geography, socio-economic status, or physical challenge should be addressed during project implementation. In addition, project participants and administrators should reflect the diversity within the societies which they represent (see the section of this document on "Diversity, Freedom, and Democracy Guidelines"). Proposals should also discuss how the various institutional partners approach diversity issues in their respective communities or societies.
