FTZ procedures would exempt Lilly from Customs duty payments on the foreign components used in export activity. On its domestic sales, the company would be able to elect the duty rates that apply to finished products (primarily duty-free for finished pharmaceuticals and up to 14.2% for intermediates) for the foreign materials noted above (duty rates ranging from duty-free to 14.5%). The application indicates that the expanded use of FTZ procedures will help improve Lilly's international competitiveness.
