

How the Proposals Are Reviewed and Ranked

The Selection Committee reviews each proposal with the following criteria in mind. Each area has a numerical value, with an opportunity for a narrative response. The points of each reviewer for each proposal are totaled, comments are added, then each proposal is given an average. The Committee meets to discuss each proposal and review the results of scoring. The proposals with the highest ranking, up to the estimated amount of funding, are selected. Upon approval of management, formal applications are then requested from the selected applicants.

Proposal Evaluation Criteria

- 1. Does the project meet one or more of the Regional priorities? If not, has the applicant justified the need for the project?
- 2. Does the project have transferability to other State/Tribes/Local governments?
- 3. Did applicant follow proposal guidelines? Did it address all components?
 - 4. What is the applicant's past performance, if applicable?
 - 5. Is the budget reasonable and appropriate?
 - 6. What are the potential environmental results? Does it result in physical, natural restoration? Are the environmental results immediate or long term? How many acres of wetlands are enhanced, restored, created?
 - 7. What is the outreach/educational value of the project?
 - 8. What is the likelihood of success? Can the project be realistically accomplished?
 - 9. Does the project have durable and sustainable characteristics; in other words, will it outlive the project period?
 - 10. Is the project part of an approved State Wetlands Conservation Plan?
