1926.550(g)(4)(ii)(I) requires employers to post conspicuously with a plate or other permanent marking the weight and related-load capacity or maximum intended load of each platform used to raise and lower employees to a worksite using a crane or derrick. This requirement helps employers to avoid exceeding the lifting capacity and prevents crane or derrick collapses thus

avoiding serious injuring or death to employees.

Description: The Secretary of Labor has legal responsibility under the Social Security Act (SSA) Title III, Section 303(a)(1) for providing state agencies the necessary cost of proper and efficient administration of state unemployment insurance (UI) laws. Accordingly, the Secretary must establish a means of measuring state agencies' "proper and efficient administration" of UI

programs. The RJM would replace the current methodologies for budget formulation and grant allocation to the states for UI programs.
