SUPPLEMENTARY INFORMATION:

Title: Identification, Listing and Rulemaking Petitions (OMB Control No. 2050-0053; EPA ICR No.1189.09) expiring September 30, 2001. This is a request for extension of a currently approved collection.

Abstract: This ICR provides a discussion of all the information collection requirements associated with developing and reviewing rulemaking petitions, solid waste and boiler variances, hazardous waste exclusions, and hazardous waste listing exemptions under 40 CFR parts 260 and 261. It includes a detailed description of data items and respondent activities associated with each activity. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on April 3, 2001 (66 FR 17702); no comments were submitted.

Burden Statement: The annual public reporting and record keeping burden for this collection of information varies depending on the type of petition or demonstration. For example, it is estimated that the average reporting burden per respondent ranges from less than 1 hour (equipment cleaning and replacement) to 748 hours (preparation of a delisting petition). The average recordkeeping burden per respondent

ranges from 63 hours (equipment cleaning and replacement) to 2 hours (delisting petition). Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Business or other for Profit Institutions.

Estimated Number of Respondents: 126.

Frequency of Response: On occasion.
Estimated Total Annual Hour Burden: 20,802 hours.

Estimated Total Annualized Capital, O&M Cost Burden: \$886,315.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 1189.09 and OMB Control No. 2050-0053 in any correspondence.

Dated: September 18, 2001.

SUPPLEMENTARY INFORMATION:

Title: NSPS Asphalt Processing and Asphalt Roofing Manufacture; OMB Control Number 2060-0002; EPA ICR No. 0661.07, expiring September 30, 2001. This is a request for extension of a currently approved collection.

Abstract: This ICR contains recordkeeping and reporting requirements that are mandatory for compliance with 40 CFR Part 60, New Source Performance Standards (NSPS), Subpart UU. The respondents of the recordkeeping and reporting requirements are asphalt processing and roofing manufacturers (SIC Codes 2911, 2951, and 2952) which commenced construction, modification, or reconstruction after November 18, 1980, or May 26, 1981 as appropriate. The control of emissions of particulate matter from asphalt processing and asphalt roof manufacturing requires not only the installation of properly designed equipment, but also the operation and maintenance of that equipment. Particulate matter emissions from asphalt processing and asphalt roof manufacturing are the result of materials handling, fuel combustion, and storage. These standards rely on the reduction of particulate matter emissions by pollution control devices such as electrostatic precipitators, high velocity

air filters, or afterburners. In order to ensure compliance with these standards, adequate recordkeeping is necessary. In the absence of such information enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act. The standards require initial notification reports with respect to construction, modification, reconstruction, startups, shutdowns, and malfunctions. The standards also require reports on initial performance tests. Under the standard, the data collected by the affected industry is retained at the facility for a minimum of two (2) years and available for inspection by the Administrator.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required by 5 CFR 1320.8(d), soliciting comments on this collection of information was published on February 1, 2001. No comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1,509 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Asphalt Processing and Asphalt Roofing Manufacturers.

Estimated Number of Respondents: 83.

Frequency of Response: Initial start-up.

Estimated Total Annual Hour Burden: 15,089 hours.

Estimated Total Annualized Capital, O&M Cost Burden: \$3,105,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any

suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR Number 0661.07 and OMB Control Number 2060-0002, in any correspondence.

Dated: September 12, 2001.

OFFICE OF NATIONAL DRUG CONTROL POLICY

Executive Office of the President; Paperwork Reduction Act; Notice of Proposed Information Collection; Comment Request

AGENCY: Office of National Drug Control Policy (ONDCP).

ACTION: Submission for OMB review; Comment request.

SUMMARY: The ONDCP has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for proposes to collect information to test the awareness, attitudes and willingness of adults 18 years and older to participate in community anti-drug coalitions.

SUPPLEMENTARY INFORMATION:

I. Background

The National Youth Anti-Drug Media Campaign is a component within the ONDCP that is partnering with the Advertising Council to create a public service campaign that will generate awareness and involvement in local community anti-drug coalitions that mobilize communities to engage in drug prevention measures. To assist the development of the public service campaign, ONDCP proposes to obtain information to sample the awareness, attitudes and willingness of adults 18 years of age and older in order to participate in community anti-drug coalitions. The information will be used to establish a baseline for measuring changes in attitudes and awareness as a result of the public service campaign, and provide data for formative and qualitative evaluation activities. It will assess the public's exposure to and recall of advertising (within a donated media model), and measure change in attitudes about drug prevention and community anti-drug coalitions.

II. Special Issues for Comment

The agency has particular interest in comments on the following issues:

Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of the burden of the proposed collection of information; methods to enhance quality, utility and clarity of the information to be collected; and, the means to minimize the burden of the collection of information on respondents, including the use of automated collection techniques.

III. For Additional Information

To request more information on the proposed projects or to obtain a copy of the information collection plans, please contact Terry Zobeck at (202) 395-5503. Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Lauren Wittenberg, OMB Desk Officer, Room 10235, New Executive Office Building, Washington, DC 20503.

IV. Authority and Signature

Alan Levitt, Director for the National Youth Anti-Drug Media Campaign, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506).

Signed at Washington, DC on September 6, 2001.

Alan Levitt,

Director, National Youth Anti-Drug Media Campaign.
