BILLING CODE 4510-30-M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 01-113]

U.S. Centennial of Flight Commission

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Meeting Location Change.

SUMMARY: In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Aeronautics and Space Administration announces a change of location for the meeting of the U.S. Centennial of Flight Commission, Notice Number 01-110.

DATES: Thursday, October 4, 2001, 1 pm to 5 pm.

Previously Announced Location: National Aeronautics and Space Administration, Room 9H40, Program Review Center (PRC), 300 E Street, SW, Washington, DC.

Change in the Meeting: The meeting will now be held at the Smithsonian National Air and Space Museum, 7th and Independence Avenue, SW., Director's Conference Room, 3rd Floor, Washington, DC 20560. Attendees must check in at the Information Desk to be cleared to the 3rd floor.

FOR FURTHER INFORMATION CONTACT: Ms. Beverly Farmarco, Code IW, National

Aeronautics and Space Administration, Washington, DC 20546, 202/358-1903.

Beth M. McCormick,

*Advisory Committee Management Officer,
National Aeronautics and Space Administration.*

BILLING CODE 7510-01-P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request; Submission for OMB Review

AGENCY: National Science Foundation.
ACTION: Notice.

SUMMARY: Under the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3501 *et seq.*), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public or other Federal agencies to comment on this proposed continuing information collection. This is the second notice for public comment; the first was published in the **Federal Register** on page 38326 in the Monday, July 23, 2001 [Vol. 66, No. 141] issue and one comment was received. NSF is forwarding the proposed renewal submission to OMB for clearance simultaneously with the publication of this second notice.

DATES: Written comments should be received by October 25, 2001, to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Written comments regarding the information collection and requests for copies of the proposed information collection request should be addressed to Suzanne Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230, or by e-mail to splimpto@nsf.gov.

FOR FURTHER INFORMATION CONTACT: Suzanne Plimpton on (703) 292-7556 or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Title of Collection: Survey of Industrial Research and Development.

OMB Control No.: 3145-0027.

Expiration Date of Approval: December 31, 2001.

1. Abstract

The proposed continuing information collection involves the estimation of the expenditures on research and development performed within the United States by industrial firms. A mail survey, the Survey of industrial Research and Development, has been conducted annually since 1953. Industry accounts for over 70 percent of total U.S. R&D each year and since its inception, the survey has provided continuity of statistics on R&D expenditures by major industry groups and by source of funds. The survey is the industrial component of the NSF statistical programs that seeks to " * * * to provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources and to provide a source of information for policy formulation by other agencies of the Federal government." as mandated in the National Science Foundation Act of 1950. Statistics from the survey are published in NSF's annual publication series Research and Development in Industry. The proposed collection will continue the survey for three years.

2. Expected Respondents

The survey will be mailed to a statistical sample of approximately 24,200 companies to collect information on the amount and sources of funds for and character of R&D performed and contracted out by industrial firms, and information on sales and employment of the firms themselves.

3. Burden on the Public

To minimize burden, over 90-percent of the companies selected for the Survey of Industrial Research and Development are asked to respond to the Form RD-1A, the abbreviated version of the basic survey questionnaire, Form RD-1. Further, only companies with five paid employees or more are asked to participate in the survey and extensive use is made of the descriptive codes and information on the establishment list that is the source of the survey sample to avoid sampling firms in industries that traditionally do not perform R&D. NSF, with input from the Bureau of the Census, the collection and compiling agent for the survey, estimates that the average annual reporting and record keeping burden on each Form RD-1A respondent will be 1 hour and on Form RD-1 respondents will be 18 hours. The annual burden is estimated at 51,400 hours, calculated as follows:

RD-1A respondents: 22,600 respondents × 1 response × 1 burden hour = 22,600 hours/year.
