These allocations are based on the countries' historical trade to the United States. The allocations of the raw sugar tariff-rate quota to countries that are net importers of sugar are conditioned on receipt of the appropriate verifications of origin.

This allocation includes the following minimum quota-holding countries: Congo, Cote d'Ivoire, Gabon, Haiti, Madagascar, Papua New Guinea, Paraguay, St. Kitts & Nevis, and Uruguay.

The in-quota quantity of the tariff-rate quota for refined sugar for the period October 1, 2001–September 30, 2002, has been established by the Secretary of Agriculture at 171,788 metric tons, raw value (189,364 short tons), of which the Secretary has reserved 13,656 metric tons (15,053 short tons) for specialty sugars. Of the quantity not reserved for specialty sugars, a total of 10,300 metric tons (11,354 short tons) is being allocated to Canada and 2,954 metric tons (3,256 short tons) is being allocated to Mexico. An additional 137,788 metric tons of this quantity is being allocated to Mexico to fulfill obligations pursuant to the NAFTA. This allocation is subject to NAFTA rules of origin and to the condition that the total imports of raw and refined sugar from Mexico, combined, may not exceed 137,788 metric tons raw value. The remaining 7,090 metric tons (7,815 short tons) of the in-quota quantity not reserved for specialty sugars may be supplied by any country on a first-come, first-served basis, subject to any other provision of law. The 13,656 metric tons (15,053 short tons) reserved for specialty sugars is also not being allocated among supplying countries and is available on a first-come, first-served basis, subject to any other provision of law.

With respect to the tariff-rate quota for certain sugar-containing products maintained pursuant to additional U.S. Note 8 to Chapter 17 of the Harmonized Tariff Schedule, 59,250 metric tons (65,312 short tons) of sugar containing products is being allocated to Canada. The remaining in-quota quantity for this tariff-rate quota is available to other countries on a first-come, first-served

basis. Conversion factor: 1 metric ton = 1.10231125 short tons.
