

cooperative associations and for the purpose of assisting cooperative associations in developing methods of business and market analysis.

(4) acquire from all available sources, information concerning crop prospects, supply, demand, current receipts, exports, imports, and prices of agricultural products handled or marketed by cooperative associations, and to employ qualified commodity marketing specialists to summarize and analyze this information and disseminate the same among cooperative associations and others.”

RBS also has a stated objective to “assist U.S. farmer cooperatives to expand their participation in international trade of agricultural products and supplies and to review their progress.” As trade agreements are implemented and domestic farm supports are reduced, a global presence is increasingly important to producers, their communities, and to job-creation and retention in agri- and food-related industries. Measurement and monitoring of cooperatives’ global presence are stated objectives of RBS’s International Trade Program. In order to carry out the agency’s mission and objectives, RBS needs to collect information from the cooperative community. This information collection is designed to provide time-series data that will provide a better understanding of the opportunities and limitations of producer-owned cooperatives in global markets. The data provide the basis for research on trade-related issues affecting cooperatives, and background for trade-related policy analysis.

Beginning in 1980, RBS’s predecessor agency Agricultural Cooperative Service (ACS) collected cooperative trade data at five year intervals. Value of cooperative exports by commodity and destination were measured, as well as information related to method of sale. Values of imports by cooperatives, by commodity and country of origin were collected in 1986 and 1991. Since 1997, data have been collected on an annual basis (OMB No. 0570-0020), as it had become apparent that data collected at intervals longer than one year do not provide for meaningful analysis. Further, data collected prior to 1997 had been strictly limited to exports and imports, neglecting other important international arrangements such as strategic alliances and foreign direct investment. A more comprehensive, annual data set accomplishes stated CS objectives to measure and monitor cooperatives’ global presence. These data are generally not available to RBS unless provided by the cooperatives.

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average one (1) hour per response.

*Respondents:* Cooperatives involved in international activities.

*Estimated Number of Respondents:* 127.

*Estimated Number of Responses per Respondent:* one per year.

*Estimated Total Annual Burden on Respondents:* 127 hours.

## DEPARTMENT OF AGRICULTURE

### Rural Utilities Service

#### Notice of Availability of a Draft Environmental Impact Statement

**AGENCY:** Rural Utilities Service, USDA.

**ACTION:** Notice of availability of a draft environmental impact statement.

**SUMMARY:** Notice is hereby given that the Rural Utilities Service (RUS), has released for public review and comment

a Draft Environmental Impact Statement (DEIS) for the Southern Intertie Project. The project being proposed by the Intertie Participants Group (IPG) is the construction of a 138 kilovolt (kV) transmission line between the Kenai Peninsula and Anchorage, Alaska. The RUS is the lead Federal agency in the environmental review process. The U.S. Fish and Wildlife Service (USFWS) and the U.S. Army Corps of Engineers (USACE) are serving as cooperating agencies.

Three public hearings have been scheduled during the review and comment period on the DEIS. The dates and locations of these hearings are described below.

**DATES:** The public hearing dates are:

1. October 30, 2001, 2 p.m. to 4 p.m., Washington, DC
2. November 13, 2001, 7 p.m. to 9 p.m., Anchorage, Alaska
3. November 14, 2001, 7 p.m. to 9 p.m., Soldotna, Alaska

**ADDRESSES:** The public hearing locations are:

1. Washington, DC—U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, Room 200 A/B, Arlington, VA
2. Anchorage, AK—Loussac Library, 3600 Denali Street, Wilda Marston Theater, Anchorage, AK
3. Soldotna, AK—Kenai Peninsula Borough Administration Building, 144 North Binkley Street, Kenai Peninsula Borough Chambers, Soldotna, AK

**FOR INFORMATION CONTACT:** Lawrence R. Wolfe, Senior Environmental Protection Specialist, Engineering and Environmental Staff, USDA Rural Utilities Service, Stop 1571, 1400 Independence Avenue, SW., Washington, DC 20250-1571, telephone (202) 720-1784. The E-mail address is: lwolfe@rus.usda.gov.

**SUPPLEMENTARY INFORMATION:** The IPG has proposed a new 138 kV transmission line in order to improve the overall Railbelt electrical system reliability and energy transfer capabilities between the Kenai Peninsula and Anchorage. The IPG proposed alternative, the Enstar Route, would connect the Soldotna Substation on the Kenai Peninsula with the International Substation in Anchorage. This alternative would parallel the Enstar Pipeline through the Kenai National Wildlife Refuge (KNWR). A second alternative, the Tesoro Route, would connect the Bernice Lake Substation on the Kenai Peninsula with the Pt. Woronzof Substation in Anchorage. This alternative would parallel the Tesoro Pipeline from the

Captain Cook State Recreational Area to Pt. Possession. The DEIS analyzes the potential impacts of constructing and operating a 138 kV transmission line along both the Enstar and Tesoro Routes. The DEIS evaluates a number of routing alternatives and related system improvements between the proposed substation connections, as well as alternative technologies and the no-action alternative.

The RUS, USACE, and USFWS will issue final decisions regarding the IPG proposal at the conclusion of the environmental review process.

Regardless of which routing alternatives are selected, certain construction activities will require a Department of the Army permit. A copy of the Public Notice of Application for Permit is included in the DEIS. Comments on the permit application may be submitted to the USACE directly or may be included with other comments on the DEIS.

The USFWS must decide whether to issue a right-of-way permit to the IPG to construct and operate the proposed facilities on lands within the KNWR. The decision will be made in accordance with the requirements of Title XI of the Alaska National Interest Lands Conservation Act (ANILCA) (Pub. L. 96-487) for access by transportation and utility systems across conservation system units in Alaska. Title XI of ANILCA stipulates that public hearings be held in Washington, DC and Alaska during the DEIS review period.

The USFWS must also prepare a compatibility determination in accordance with the requirements of the National Wildlife Refuge System Administration Act (16 U.S.C. 668dd), as amended, for any proposed facilities on lands within the KNWR. The compatibility determination will be prepared by the USFWS following the public review and comment period on the DEIS. Public comments received during the review will be used in the compatibility determination process.

Copies of the DEIS are available for public review at the following public libraries in Anchorage: Z.J. Loussac Public Library; Chugiak-Eagle Public Library; Gerrish (Girdwood) Branch Library; Mountain View Branch Library; Muldoon Branch Library; and the Samson-Diamond Public Library. Copies will also be available for review at the following libraries on the Kenai Peninsula: Hope Community Library; Cooper Landing Community Library; Soldotna Public Library; and Kenai Community Library. In Washington, D.C., copies are available for review at RUS offices. A copy of the DEIS is also available for review online at <http://www.usda.gov/rus/water/ees/eis.htm>.

Public comments concerning the adequacy and accuracy of the DEIS will be accepted during a 60 day comment period ending December 5, 2001.

Comments should be sent to Lawrence R. Wolfe at the address provided above.
