BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Butler County, PA

AGENCY: Federal Highway Administration (FHWA) DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an Environmental Impact Statement will be prepared for a proposed highway project in Butler County, Pennsylvania.

FOR FURTHER INFORMATION CONTACT: Mr. David W. Cough, P.E., Director of Operations, Federal Highway Administration, Pennsylvania Division Office, 228 Walnut Street, Room 536, Harrisburg, Pennsylvania 17101-1720

(717) 221-3411 or George Boros, Project Manager, Pennsylvania Department of Transportation, District 10-0, Route 286 South, P.O. Box 429, Indiana, Pennsylvania 15701, (724) 357-2842.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Pennsylvania Department of Transportation (PENNDOT), will prepare an Environmental Impact Statement (EIS) for a transportation improvement within the 12-mile study area of State Route 0228 (SR 228). The western terminus of the study area encompasses U.S. Route 19 in Cranberry Township, and the eastern terminus is slightly east of SR 0008 (SR 8) in Middlesex Township. The northern and southern limits of the study area comprise an area between a half-mile to two-mile width on either side of the existing SR 228 corridor. A portion of the southern limit of the study area borders the Butler and Allegheny County line.

The project will include the development of a reasonable range of alternatives that meet the project need and the preparation of supporting environmental documentation and analysis to recommend a preferred alternative for implementation.

The primary purpose of this project is to relieve congestion along the existing SR 228 corridor. The proposed action will be consistent with the region's transportation goals and objectives as defined by the Southwestern Pennsylvania Commission (SPC) and the Butler County Planning Commission.

Alternatives that will be considered include new off-line roadway alignments, on-line upgrade of existing roadways, and a no-build alternative. Additionally, limited construction options including Transportation Systems Management (TSM) and Congestion Management System (CMS) strategies will be evaluated. These alternatives will be the basis for a recommendation of alternatives to be carried forward for detailed environmental and engineering studies. A preferred alternative will be identified which best meets the need of the traffic demand, and satisfies the environmental, socioeconomic and engineering needs and incorporates public input.

A full public involvement program will be incorporated into the project development process. A Community Advisory Committee (CAC) will be organized to provide an ongoing liaison between the local citizens and the project team. A newsletter mailing list has been developed. A Public Hearing

will be held at the conclusion of the study to solicit comments from the public on the alternatives presented. The Draft EIS will be available for public and agency review and comment prior to the public hearing. The project website is active at the following address: www.route228east.com.

Periodic meetings are scheduled with state and federal environmental agencies through Agency Coordination Meetings (ACM) to present project information and to receive comments and input from the agencies on the development of the project.

Comments will be solicited from appropriate federal, state and local agencies, and from private organizations and citizens who have previously expressed, or are known to have an interest in this project. Public meetings will be held in the area throughout the study process. Public involvement and agency coordination will be maintained throughout the development of the EIS.

To ensure that a full range of issues related to this proposed action are addressed and all significant issues are identified, comments and suggestions are invited from all interested parties. Comments and questions concerning the proposed action and the EIS should be directed to the FHWA or PENNDOT at the address provided above.

(Catalog of Federal Domestic Assistance Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

James A. Cheatham,

FHWA Division Administrator, Harrisburg, Pennsylvania.
