DEPARTMENT OF THE INTERIOR

National Park Service

CORRECTION—Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the Museum of Natural History and Planetarium, Roger Williams Park, Providence, RI

AGENCY: National Park Service, Interior.
ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the Museum of Natural History and Planetarium, Roger Williams Park, Providence, RI.

This notice corrects and supercedes the Notice of Inventory Completion

published May 3, 2001, by substituting "Wampanoag Tribe of Gay Head (Aquinnah)" for "Wampanoag Repatriation Confederation, representing the Wampanoag Tribe of Gay Head (Aquinnah), the Mashpee Wampanoag (a non-Federally recognized Indian group), and the Assonet Band of the Wampanoag Nation (a non-Federally recognized Indian group)" in each reference to groups that were consulted, groups that were affiliated with human remains and associated funerary objects listed in the notice, groups to which copies of this notice had been sent, and groups participating in the repatriation of these human remains and associated funerary objects. Paragraphs 3, 5, 7, 9, 11, 13, 15, 17, and 18 of the May 3, 2001, notice are corrected by this substitution. The full corrected text of the notice follows.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by Museum of Natural History and Planetarium professional staff in consultation with representatives of the Narragansett Indian Tribe of Rhode Island and Wampanoag Tribe of Gay Head (Aquinnah).

In 1899, human remains representing one individual were recovered from

Jamestown, RI, by James H. Clarke and donated to the Museum of Natural History and Planetarium. No known individual was identified. The two associated funerary objects are an iron axe fragment and an animal bone fragment.

Based on red ochre and copper staining on the human remains, this individual has been determined to be Native American from the contact period. Based on physical evidence and geographic/provenience information, this individual has been determined to be culturally affiliated with the Narragansett Indian Tribe of Rhode Island and Wampanoag Tribe of Gay Head (Aquinnah).

Before May 1939, human remains representing two individuals were recovered from Old Warwick, near Wharf Road, East Greenwich, RI, by Lincoln C. Bateson, who donated these human remains to the Museum of Natural History and Planetarium in May 1939. No known individuals were identified. No associated funerary objects are present.

Based on museum documentation and physical evidence, these individuals have been identified as Native American. Based on physical evidence and geographic/provenience information, these individuals have been determined to be culturally affiliated with the Narragansett Indian Tribe of Rhode Island and Wampanoag Tribe of Gay Head (Aquinnah).

In 1854, human remains representing one individual were recovered from the Stone Bridge Inn site (RI 1947), Tiverton, RI, by person(s) unknown, and donated to the Museum of Natural History and Planetarium in 1903. No
