BILLING CODE 4510-30-M

DEPARTMENT OF LABOR

Employment and Training Administration

[NAFTA-03607]

The Chinet Company, Now Known as Huhtamaki Food Service, Inc., Waterville, ME; Amended Certification Regarding Eligibility To Apply for NAFTA-Transitional Adjustment Assistance

In accordance with section 250(A), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974 (19 U.S.C. 2273), the Department of Labor issued a Certification for NAFTA Transitional Adjustment Assistance on January 28, 2000, applicable to workers of The Chinet Company, Waterville, Maine. The notice was published in the **Federal Register** on February 15, 2000 (65 FR 7565).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of laminated molded fiber frozen food trays. The company reports that in June, 2001, The Chinet Company became known as Huhtamaki Food Service, Inc. as a result of a 1999 merger.

Information also shows that workers separated from employment at the subject firm, had their wages reported under a separate unemployment insurance (UI) tax account for Huhtamaki Food Service, Inc.

Accordingly, the Department is amending the certification determination to properly reflect this matter.

The intent of the Department's certification is to include all workers of The Chinet Company, now known as Huhtamaki Food Service, Inc., who were adversely affected by an increase of imports from Canada.

The amended notice applicable to NAFTA-03607 is hereby issued as follows:

All workers of The Chinet Company, now known as Huhtamaki Food Service, Inc., Waterville, Maine who became totally or partially separated from employment on or after December 1, 1998, through January 28, 2002, are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed at Washington, DC, this 10th day of September, 2001.

Edward A. Tomchick,

Director, Division of Trade Adjustment Assistance.

[NAFTA-4418 and TA-W-38,516]

Owens Brockway, Glass Container Division, Fulton, NY; Notice of Revised Determination on Reconsideration

By letter of May 1, 2001, the Glass, Molders, Pottery, Plastics & Allied Workers International Union requested administrative reconsideration of the Department's denial of North American Free Trade Agreement-Transitional Adjustment Assistance (NAFTA-TAA) and Trade Adjustment Assistance (TAA), applicable to workers of Owens Brockway, Glass Container Division, Fulton, New York. The notices were published in the **Federal Register** on May 2, 2001, NAFTA-4418 (66 FR 22007), and TA-W-38,516 (66 FR 22006).

The workers were primarily engaged in the production of glass bottles.

The workers were denied NAFTA-TAA on the basis that there was no shift in production to Mexico or Canada, nor were there company or customer imports of glass bottles from Mexico or Canada. The workers were denied TAA because the "contributed importantly" test of the Group Eligibility Requirements of the Trade Act was not met.

The union request for reconsideration indicated that the subject plants' major customer imported glass bottles from South America and Mexico. Upon examination of 1999 and 2000 glass bottle import statistics, aggregate U.S. imports of glass bottles from Canada and Mexico increased significantly. The review further depicts a meaningful increase in aggregate U.S. imports of glass bottles during the relevant period.

Conclusion

After careful consideration of the new facts obtained on reconsideration, it is concluded that the workers of Owens Brockway, Glass Container Division, Fulton, New York, were adversely affected by increased imports (including those from Canada and Mexico) of articles like or directly competitive with glass bottles produced at the subject firm.

All workers of Owens Brockway, Glass Container Division, Fulton, New York, who became totally or partially separated from employment on or after December 1, 1999, through two years from the date of certification, are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974; and

All workers of Owens Brockway, Glass Container Division, Fulton, New York, who became totally or partially separated from employment on or after December 1, 1999, through two years from the date of certification, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, DC this 18th day of September 2001.

Edward A. Tomchick,

Director, Division of Trade Adjustment Assistance.

BILLING CODE 4510-30-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-289]

AmerGen Energy Company, LLC; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of AmerGen Energy Company, LLC (the licensee), to withdraw its August 9, 2000, application for proposed amendment to Facility Operating License No. DPR-50 for the Three Mile Island Nuclear Station, Unit 1, located in Dauphin County, Pennsylvania.

The proposed amendment would have revised the Technical Specifications related to the independent onsite safety review group to indicate that these functions would now be performed by nuclear quality assurance personnel. This request was superceded in its entirety by the licensee's application dated August 14, 2001.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on October 18, 2000 (65 FR 62381). However, by letter dated August 14, 2001, the licensee superceded its previous submittal in its entirety and withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated August 9, 2000, and the licensee's letter dated August 14, 2001, which superceded in its entirety and withdrew the previous application

for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/NRC/ADAMS/index/html>. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737 or by email to pdrc@nrc.gov.

Dated at Rockville, Maryland, this 27th day of September 2001.

For The Nuclear Regulatory Commission.

Timothy G. Colburn,

Senior Project Manager, Section 1, Project Directorate I, Division of Licensing Project Management Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-293]

Entergy Nuclear Generation Co. Pilgrim Nuclear Power Station; Notice of Consideration of Approval of Transfer of Operating Authority Under Facility Operating License, Transfer of Materials License, and Conforming Amendments, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 and other applicable regulations approving the transfer of operating authority under Facility Operating License No. DPR-35, and the transfer of Materials License No. 20-07626-04 for the Pilgrim Nuclear Power Station (Pilgrim) currently held by Entergy Nuclear Generation Company (ENGC), which is the owner of Pilgrim. The transfer of authority to operate Pilgrim and transfer of the materials license would be to Entergy Nuclear Operations, Incorporated (ENO). ENO is an indirect subsidiary of Entergy Corporation. The Commission is further considering amending the licenses for administrative purposes to reflect the proposed transfer.

According to an application for approval filed by ENGC, ENGC's ownership of Pilgrim would be unchanged and ENGC would continue

to be responsible for the costs associated with operating and maintaining Pilgrim. In addition, there would be no changes to existing decommissioning funding assurance arrangements. ENO would become a licensee, authorized to operate the unit and possess certain nuclear materials. No physical changes to the facility or operational changes are being proposed in the application.

The proposed amendments would replace references to ENGC in the licenses as the operator of Pilgrim with references to ENO, and otherwise substitute ENO for ENGC as appropriate in the licenses.

Pursuant to 10 CFR 50.80, no license shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve an application for the transfer of a license if the Commission determines that the proposed transferee is qualified to hold the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

Before issuance of the proposed conforming license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

As provided in 10 CFR 2.1315, unless otherwise determined by the Commission with regard to a specific application, the Commission has determined that any amendment to the license of a utilization facility which does no more than conform the license to reflect the transfer action involves no significant hazards consideration. No contrary determination has been made with respect to this specific license amendment application. In light of the generic determination reflected in 10 CFR 2.1315, no public comments with respect to significant hazards considerations are being solicited, notwithstanding the general comment procedures contained in 10 CFR 50.91.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the license transfer application, are discussed below.

By October 24, 2001, any person whose interest may be affected by the Commission's action on the application may request a hearing and, if not the applicant, may petition for leave to intervene in a hearing proceeding on the Commission's action. Requests for a hearing and petitions for leave to intervene should be filed in accordance with the Commission's rules of practice

set forth in Subpart M, "Public Notification, Availability of Documents and Records, Hearing Requests and Procedures for Hearings on License Transfer Applications," of 10 CFR part 2. In particular, such requests and petitions must comply with the requirements set forth in 10 CFR 2.1306, and should address the considerations contained in 10 CFR 2.1308(a). Untimely requests and petitions may be denied, as provided in 10 CFR 2.1308(b), unless good cause for failure to file on time is established. In addition, an untimely request or petition should address the factors that the Commission will also consider, in reviewing untimely requests or petitions, set forth in 10 CFR 2.1308(b)(1)-(2).

Requests for a hearing and petitions for leave to intervene should be served upon Douglas E. Levanway, Esq., counsel for ENGC, at Wise, Carter, Child, and Caraway, P.O. Box 651, Jackson, MS 39205 (tel: 601-968-5524; fax: 601-968-5519; e-mail: del@wisecarter.com); the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555 (e-mail address for filings regarding license transfer cases only: OGCLT@NRC.gov); and the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, in accordance with 10 CFR 2.1313.

The Commission will issue a notice or order granting or denying a hearing request or intervention petition, designating the issues for any hearing that will be held and designating the Presiding Officer. A notice granting a hearing will be published in the **Federal Register** and served on the parties to the hearing.

As an alternative to requests for hearing and petitions to intervene, by November 5, 2001, persons may submit written comments regarding the license transfer application, as provided for in 10 CFR 2.1305. The Commission will consider and, if appropriate, respond to these comments, but such comments will not otherwise constitute part of the decisional record. Comments should be submitted to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, and should cite the publication date and page number of this **Federal Register** notice.

For further details with respect to this action, see the application dated August 24, 2001, available for public inspection at the Commission's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available
