Nature of Subsidies

In the Sunset Policy Bulletin, the Department states that, consistent with section 752(a)(6) of the Act, the Department will provide to the Commission information concerning the nature of the subsidy, and whether the subsidy is a subsidy described in Article 3 or Article 6.1 of the Subsidies Agreement. In this review we find that three of the programs included in the calculations of the net countervailable subsidy fall within the definition of an export subsidy under Article 3.1(a) of the Subsidies Agreement. They are: Export Marketing Grants Under Law 304/90, Remission of Taxes on Export Credit Insurance Under Article 33 of Law 227/77, and the Export Restitution Program. Furthermore, some or all of the programs at issue could be found to be inconsistent with Article 6.1. For example, the net countervailable subsidy may exceed five percent, as measured in accordance with Annex IV of the Subsidies Agreement. The Department, however, has no information with which to make such a calculation; nor do we believe it appropriate to attempt such a calculation in the course of a sunset review. Moreover, we note that, as of January 1, 2000, Article 6.1 has ceased to apply (see Article 31 of the Subsidies Agreement). As such, we are providing the Commission with program descriptions in our Decision Memo.

This notice serves as the only reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305 of the Department's regulations. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This five-year ("sunset") review and notice are in accordance with sections 751(c), 752, and 777(i)(1) of the Act.
