#### SUPPLEMENTARY INFORMATION:

**Title:** General Administration Request  
for Assistance Programs (Lobbying &  
Litigation Certification Amendment),  
OMB Control Number 2030-0020, EPA  
ICR Number 0938.08, expiring  
December 31, 2002. This is a request to  
amend the existing approved collection.

**Abstract:** Public Law 106-377, section  
424 of the FY 2001 VA, HUD and  
Independent Agencies Appropriations  
Act (Appropriations Act) requires "A  
chief executive officer of any entity  
receiving funds under this Act shall  
certify that none of the funds have been  
used to engage in the lobbying of the  
Federal Government or in litigation  
against the United States unless  
authorized by law." Public Law 106-74,  
section 426 of the FY 2000  
Appropriations Act contains a similar  
provision. These provisions impose  
additional information collection  
requirements on EPA assistance  
agreements and thus necessitate an  
amendment to the existing ICR.

The sole purpose of the certification  
is to validate that a chief executive  
officer of any entity receiving EPA  
assistance funds has certified that none  
of the funds were used in lobbying the  
Federal Government or in litigation  
against the United States. The  
certification will consist of a one-  
paragraph form that will be signed by a  
chief executive officer. It will normally  
be submitted with the final Financial  
Status Report. Recipients with multiple  
awards may choose to submit one  
certification covering all their awards on  
an annual basis.

An agency may not conduct or  
sponsor, and a person is not required to  
respond to, a collection of information  
unless it displays a currently valid OMB  
control number. The OMB control  
numbers for EPA's regulations are listed  
in 40 CFR part 9 and 48 CFR Chapter  
15. The **Federal Register** document  
required under 5 CFR 1320.8(d),  
soliciting comments on this collection  
of information was published on May  
29, 2001, (66 FR 29125); no comments  
were received.

**Burden Statement:** The annual public  
reporting and record keeping burden for  
this collection of information is  
estimated to be five minutes per  
response. Burden means the total time,  
effort, or financial resources expended  
by persons to generate, maintain, retain,  
or disclose or provide information to or  
for a Federal agency. This includes the  
time needed to review instructions;  
develop, acquire, install and utilize  
technology and systems for the purposes  
of collecting, validating, and verifying  
information, processing and  
maintaining information, and disclosing  
and providing information; adjust the  
existing ways to comply with any  
previously applicable instructions and  
requirements; train personnel to be able  
to respond to a collection of  
information; search data sources;  
complete and review the collection of  
information; and transmit or otherwise  
disclose the information.

**Respondents/Affected Entities:** Not-  
for-profit institutions, educational  
institutions, state, local or tribal  
governments.

**Estimated Number of Respondents:**  
2000.

**Frequency of Response:** Once per  
project.

**Estimated Total Annual Hour Burden:**  
166.

**Estimated Total Annualized Capital,  
O&M Cost Burden:** \$0.

Send comments on the Agency's need  
for this information, the accuracy of the  
provided burden estimates, and any  
suggested methods for minimizing  
respondent burden, including through

the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR Number 0938.08 and OMB Control Number 2030-0020 in any correspondence.

Dated: October 5, 2001.

### Notice of Availability for Draft Guidance on Source Determinations for Combined Heat and Power Facilities Under the Clean Air Act New Source Review and Title V Programs

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of availability.

**SUMMARY:** The EPA is making available for public review and comment a preliminary draft of its pending guidance on Source Determinations for Combined Heat and Power (CHP) Facilities under the Clean Air Act New Source Review and Title V Programs. The combined generation of heat and power, also known as cogeneration, has been an energy supply option for nearly 100 years and is used in many sectors of the economy. In light of ever increasing demand for energy, electric power industry restructuring and cross-program pollution prevention initiatives, EPA is committed to improving the efficiency at which we convert fuels into useful energy. Properly designed and implemented CHP is a key element to achieving the nation's energy goals, because CHPs are capable of independently providing power to the grid or customers other than the host facility and therefore can help alleviate power shortfalls. Recognizing this, the Report of the National Energy Policy Development Group recommends "that the President direct the EPA Administrator to promote CHP through flexibility in environmental permitting."

A draft of EPA's guidance is available for public review and comment. The EPA does not intend to respond to individual comments, but rather to consider the comments from the public in the preparation of the final guidance. It is important that the draft guidance being made available today for public review and comment does not represent

official EPA policy or a formal position on the subject matter discussed and therefore is not to be relied on in interpreting EPA policy.

**DATES:** The comment period on the draft guidance will close on November 14, 2001.

**ADDRESSES:** Written comments should be sent to Pamela J. Smith, Information Transfer and Program Integration Division (MD-12), Office of Air Quality Planning and Standards, U.S. EPA, Research Triangle Park, North Carolina 27711, telephone 919-541-0641, telefax 919-541-5509 or e-mail [smith.pam@epa.gov](mailto:smith.pam@epa.gov).

#### FOR FURTHER INFORMATION CONTACT:

**SUPPLEMENTARY INFORMATION:** A copy of the draft guidance document may be obtained by calling or E-mailing Pamela J. Smith. The draft guidance may also be downloaded from the NSR Web site <http://www.epa.gov/ttn/nsr> under the topic "What's New on NSR."

### Clean Water Act Section 303(d): Availability of Total Maximum Daily Loads (TMDLs) and Determinations That TMDLs Are Not Needed

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of availability

**SUMMARY:** This notice announces the availability for comment of the administrative record file for forty-five TMDLs and the calculations for these TMDLs prepared by EPA Region 6 for waters listed in the Mermentau and Vermilion/Teche river basins, under section 303(d) of the Clean Water Act (CWA). These TMDLs were completed in response to a court order dated October 1, 1999, in the lawsuit *Sierra Club, et al. v. Clifford et al.*, No. 96-0527, (E.D. La.). Under this court order, EPA is required to prepare TMDLs when needed for waters on the Louisiana 1998

section 303(d) list by December 31, 2007. The court order also requires EPA to add or delete waters to the schedule as new data confirms that waters are or are not meeting water quality standards.

This notice also announces the availability for comment of EPA determinations that TMDLs are not needed for six waterbody/pollutant combinations in the Mermentau and Vermilion/Teche river basins because new data and information show that water quality standards are being met. This proposed action would result in the removal of six waterbody/pollutant combinations from the Louisiana 303(d) list.

**DATES:** Comments must be submitted in writing to EPA on or before November 14, 2001.

**ADDRESSES:** Comments on the forty-five TMDLs and the determinations that TMDLs are not needed for six waterbody/pollutant combinations should be sent to Ellen Caldwell, Environmental Protection Specialist, Water Quality Protection Division, U.S. Environmental Protection Agency Region 6, 1445 Ross Ave., Dallas, TX 75202-2733. For further information, contact Ellen Caldwell at (214) 665-7513. The administrative record file for these TMDLs and the determinations that TMDLs are not needed are available for public inspection at this address as well. Documents from the administrative record file may be viewed at [www.epa.gov/region6/water/tmdl.htm](http://www.epa.gov/region6/water/tmdl.htm), or obtained by calling or writing Ms. Caldwell at the above address. Please contact Ms. Caldwell to schedule an inspection.

**FOR FURTHER INFORMATION CONTACT:** Ellen Caldwell at (214) 665-7513.

**SUPPLEMENTARY INFORMATION:** In 1996, two Louisiana environmental groups, the Sierra Club and Louisiana Environmental Action Network (plaintiffs), filed a lawsuit in Federal Court against the EPA, styled *Sierra Club, et al. v. Clifford et al.*, No. 96-0527, (E.D. La.). Among other claims, plaintiffs alleged that EPA failed to establish Louisiana TMDLs in a timely manner. Discussion of the court's order may be found at 65 FR 54032 (September 6, 2000).

### EPA Seeks Comments on Forty-five TMDLs

By this notice EPA is seeking comments on the following forty-five TMDLs for waters located within the Mermentau and Vermilion/Teche basins:
