

describes the microbial water pollution problem and identifies four areas of concern as the primary focus of efforts to reduce water pollution and threats to public health.

EPA seeks public comment on all aspects of the draft Strategy. Examples of questions that might be addressed by the public include:

(1) Does the draft Strategy appropriately describe the water pollution problem and public health risk posed by microbial contamination?

(2) The draft Strategy emphasizes four areas of concern. Are these four areas appropriate as the focus of the draft Strategy? If not, which other areas of concern should be addressed and why?

(3) Are the actions identified to strengthen water pollution control programs appropriate? What other actions should be considered?

EPA will produce a report that will summarize the meeting as well as capture all comments and suggestions. Submitted written comments will also be included in the document. Comments must be submitted to Ms. Harriet McCollum at Sciences, Inc., 1800 Diagonal Road, Suite 500, Alexandria, VA 22314; phone (703) 684-0123; fax (703) 684-2223, or email at hmccollum@sciences.com, by October 24, 2001.

VI. What is the Agency's Authority for Taking this Action?

Section 5(h)(1) of TSCA and 40 CFR 720.38 authorizes EPA to exempt persons from premanufacture notification (PMN) requirements and permit them to manufacture or import new chemical substances for test marketing purposes, if the Agency finds that the manufacture, processing, distribution in commerce, use, and disposal of the substances for test marketing purposes will not present an unreasonable risk of injury to health or the environment. EPA may impose restrictions on test marketing activities and may modify or revoke a test marketing exemption upon receipt of new information which casts significant doubt on its finding that the test marketing activity will not present an unreasonable risk of injury.

VII. What Action is the Agency Taking?

EPA has approved the above-referenced TME. EPA has determined that test marketing the new chemical substance, under the conditions set out in the TME application and in this notice, will not present any unreasonable risk of injury to health or the environment.

VIII. What Restrictions Apply to this TME?

The test market time period, production volume, number of customers, and use must not exceed specifications in the application and this notice. All other conditions and restrictions described in the application and in this notice must also be met.
