Agency for Healthcare Research and Quality

Public Comment on AHRQ's Evidence-based Practice Program

AGENCY: The Agency for Healthcare Research and Quality (AHRQ), DHHS.

ACTION: Request for public comments.

SUMMARY: AHRQ will issue a Request for Proposals (RFP) in December 2001, to continue its Evidence-based Practice Centers Program (EPC Program). Prior to release of the RFP, AHRQ invites comments from interested parties about the EPC Program with respect to: (a) What has worked well; (b) What has not worked well; (c) What changes and improvements could be made.

AHRQ also is interested in suggestions about new opportunities. For example, what steps might AHRQ take to encourage more healthcare organizations and other relevant groups to translate EPC evidence reports into

clinical practice guidelines? What steps might AHRQ take to expand the number of performance measures, educational curricula, and other quality enhancement tools derived from EPC evidence reports? How might AHRQ better track implementation of the evidence-based tools and measures derived from EPC evidence reports, that impact on patient outcomes and quality of care? Are there information technology systems that AHRQ might utilize to broaden clinician access to and use of EPC products?

DATES: To be considered for incorporation in the planned RFP, comments must be received by Friday, November 9, 2001. Comments should be sent to Jacqueline Besteman via e-mail (preferred) jbstema@ahrq.gov; or fax number: 301-594-4027.

FOR FURTHER INFORMATION CONTACT: Jacqueline Besteman, J.D., M.A., Director, EPC Program, Center for Practice and Technology Assessment, AHRQ, 6010 Executive Blvd., Suite 300, Rockville, MD 20852; Phone: (301) 594-4017; Fax: (301) 594-4027; E-mail: jbstema@ahrq.gov

SUPPLEMENTARY INFORMATION:

Background

AHRQ is the lead Federal agency for enhancing the quality, appropriateness, and effectiveness of healthcare services and access to such services. In carrying out this mission, AHRQ conducts and funds research that develops and presents evidence-based information on healthcare outcomes, quality, cost, use and access. Included in AHRQ's legislative mandate is support of syntheses and wide-spread dissemination of scientific evidence, including dissemination of methods or systems for rating the strength of scientific evidence. These research findings and syntheses assist providers, clinicians, payers, patients, and policymakers in making evidence-based decisions regarding the quality and effectiveness of health care.

In June 1997, AHRQ established the Evidence-based Practice Center Program (EPC Program) to better respond to significant changes within the health care industry. AHRQ became a science partner with private and public-sector organizations in their efforts to improve the quality, effectiveness and appropriateness of clinical practice. AHRQ awarded 5-year contracts to 12 institutions and designated them as Evidence-based Practice Centers (EPCs). Since 1997, the EPCs have conducted more than 80 systematic reviews and analyses of scientific literature on a wide spectrum of topics, incorporating
