1. Statement Regarding Students' School Attendance—0960-0113. Form SSA-2434 is used by the Social Security Administration to determine student entitlement status of the children of coal miners, children of their widows or the brothers of deceased miners eligible for Black Lung benefits. This form collects information from students about to attain age 18, for the express purpose of evaluating their continuing eligibility for program benefits under the Federal Mine Safety Act of 1977. The respondents are entitled black lung children of coal miner's or their widow, or the brother of deceased black lung coal miners.

Number of Respondents: 50.

Frequency of Response: 1.

Average Burden Per Response: 10 minutes.

Estimated Annual Burden: 8 hours.

2. The Internet Social Security Benefits Application (ISBA)—0960-0618. One of the requirements for obtaining Social Security benefits is the filing of an application so that a determination may be made on the applicant's eligibility for monthly benefits. ISBA, which is available at the Social Security Administration's (SSA) Internet site, is one method that an individual can choose to file an application for benefits. In order to make a determination on eligibility for benefits, it is necessary to elicit from the applicant information about the date and place of birth, current and recent work, receipt of non-covered pensions etc. Currently, the ISBA can only be used to apply for retirement and spouse's benefits. SSA plans to expand ISBA to encompass Disability Insurance Benefits (DIB). SSA has used information collected by ISBA to entitle individuals to retirement insurance benefits and/or spouse's benefits. The information collected by the expanded ISBA will be used to entitle individuals to DIB as well. The respondents are applicants for retirement insurance benefits, spouse's benefits and disability benefits. Below is an estimate of the public reporting burden:

Type of benefit	Number of respondents	Frequency of response	Average burden per response	Estimated annual burden
RIB	130,000	1	20 minutes	43,333 hours.
DIB	39,000	1	25-30 minutes	16,542 hours.

⁷ 17 CFR 200.30-3(a)(12).

Type of benefit	Number of respondents	Frequency of response	Average burden per response	Estimated annual burden
Total	169,000			59,875 hours.

Cost-of-Living Increases

General

The next cost-of-living increase, or automatic benefit increase, is 2.6 percent for benefits under titles II and XVI of the Act. Under title II, OASDI benefits will increase by 2.6 percent for individuals eligible for December 2001 benefits, payable in January 2002. This increase is based on the authority contained in section 215(i) of the Act (42 U.S.C. 415(i)). Under title XVI, Federal SSI payment levels will also increase by 2.6 percent effective for payments made for the month of January 2002 but paid on December 31, 2001. This is based on the authority contained in section 1617 of the Act (42 U.S.C. 1382f).

Automatic Benefit Increase Computation

Under section 215(i) of the Act, the third calendar quarter of 2001 is a cost-of-living computation quarter for all the purposes of the Act. The Commissioner is, therefore, required to increase benefits, effective for December 2001, for individuals entitled under section 227 or 228 of the Act, to increase primary insurance amounts of all other individuals entitled under title II of the Act, and to increase maximum benefits payable to a family. For December 2001, the benefit increase is the percentage increase in the Consumer Price Index for Urban Wage Earners and Clerical Workers from the third quarter of 2000 to the third quarter of 2001.

Section 215(i)(1) of the Act provides that the Consumer Price Index for a cost-of-living computation quarter shall be the arithmetic mean of this index for the 3 months in that quarter. We round the arithmetic mean, if necessary, to the nearest 0.1. The Department of Labor's Consumer Price Index for Urban Wage Earners and Clerical Workers for each month in the quarter ending September 30, 2000, is: for July 2000, 169.4; for August 2000, 169.3; and for September 2000, 170.4. The arithmetic mean for this calendar quarter is 169.7. The corresponding Consumer Price Index for each month in the quarter ending September 30, 2001, is: for July 2001, 173.8; for August 2001, 173.8; and for September 2001, 174.8. The arithmetic mean for this calendar quarter is 174.1. Thus, because the Consumer Price Index for the calendar quarter ending September 30, 2001, exceeds that for the
