

TABLE 1.—LPTR STAGE 2 DISK REMOVAL SCHEDULE

If disk cycles-since-new (CSN) on the effective date of this AD are:	Then remove disk:
(1) Fewer than 5,300 CSN	Before exceeding 10,400 CSN.
(2) 5,300 CSN or more, but fewer than 10,400 CSN	Within 5,100 additional cycles-in-service from the effective date of this AD.
(3) 10,400 CSN or more	At next LPTR stage 2 disk exposure, or by 15,500 CSN, whichever occurs earlier.

(b) After the effective date of this AD, do not install any LPTR stage 2 disk, P/N 9061M22P08 or 9061M22P10, that has 10,400 or more CSN into an engine.

(c) Except for as provided in paragraph (a) of this AD, this action establishes a new, cyclic life limit of 10,400 CSN for LPTR stage 2 disk, P/N 9061M22P08 and 9061M22P10, which is published in Chapter 05–10–00 of CF6–45 and CF6–50 Engine Shop Manual, GEK 50481.

Definition

(d) For the purpose of this AD, LPTR stage 2 disk exposure is defined as disassembly and removal of the LPTR stage 2 disk from the LPTR structure, regardless of whether any blades, bolts, nuts, bolt retainers, blade retainers, blade inserts, balance weights, wear strips, or seals remain assembled to the disk.

Alternative Methods of Compliance

(e) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Engine Certification Office (ECO). Operators must submit their request through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, ECO.

Note 2: Information concerning the existence of approved alternative methods of compliance with this airworthiness directive, if any, may be obtained from the ECO.

Special Flight Permits

(f) Special flight permits may be issued in accordance §§ 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the aircraft to a location where the requirements of this AD can be done.

Issued in Burlington, Massachusetts, on October 22, 2001.

Thomas Boudreau,

Acting Manager, Engine and Propeller Directorate, Aircraft Certification Service.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[TX–129–1–7471b; FRL–7091–4]

Approval and Promulgation of Implementation Plans; Texas; Control of Air Pollution From Volatile Organic Compounds, Solvent Using Processes, Surface Coating Processes, Aerospace Manufacturing and Rework Operations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing to take direct final action on revisions to the Texas State Implementation Plan (SIP). These revisions concern Control of Air Pollution from Volatile Organic Compounds (VOC), Solvent Using Processes, Surface Coating Processes, Aerospace Manufacturing and Rework Operations. The EPA is proposing to approve these revisions to regulate emissions of VOCs as meeting the Reasonably Available Control Technology (RACT) requirements in accordance with the requirements of the Federal Clean Air Act. The EPA is also proposing to remove three site-specific alternate RACT determinations from the Texas SIP and replacing them with the VOC revisions.

In the “Rules and Regulations” section of this **Federal Register**, EPA is approving the State’s SIP revision as a direct final rule without prior proposal because the EPA views this as a noncontroversial revision and anticipates no adverse comment. The EPA has explained its reasons for this approval in the preamble to the direct final rule. If EPA receives no relevant adverse comments, the EPA will not take further action on this proposed rule. If EPA receives relevant adverse comment, EPA will withdraw the direct final rule and it will not take effect. The EPA will address all public comments in a subsequent final rule based on this

proposed rule. The EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. Our Technical Support Document for this rule revision contains more information about this action.

DATE: Written comments must be received by November 29, 2001.

ADDRESSES: Written comments should be addressed to Mr. Thomas H. Diggs, Chief, Air Planning Section (6PD–L), at the EPA Region 6 Office listed below. Copies of documents relevant to this action are available for public inspection during normal business hours at the following locations. Anyone wanting to examine these documents should make an appointment with the appropriate office at least two working days in advance.

Environmental Protection Agency, Region 6, Air Planning Section (6PD–L), 1445 Ross Avenue, Dallas, Texas 75202–2733.

Texas Natural Resource Conservation Commission, Office of Air Quality, 12124 Park 35 Circle, Austin, Texas 78753.

FOR FURTHER INFORMATION CONTACT: Mr. Alan Shar, Air Planning Section (6PD–L), EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202–2733, telephone (214) 665–6691.

SUPPLEMENTARY INFORMATION: This document concerns Control of Air Pollution from VOC, Solvent Using Processes, Surface Coating Processes, Aerospace Manufacturing and Rework Operations. For further information, please see the information provided in the direct final action that is located in the “Rules and Regulations” section of this **Federal Register** publication.

Authority: 42 U.S.C. 7401 *et seq.*

Dated: October 10, 2001.

Gregg A. Cooke,

Regional Administrator, Region 6.
