**SUPPLEMENTARY INFORMATION:**

**General Information**

The Board of Directors of the National Sheep Industry Improvement Center (NSIIC) makes this grant program of up to \$200,000 available. The NSIIC is authorized under section 375 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 2008j). A fund is established in the Treasury of the United States, without fiscal year limitations, to provide funds for the enhancement and marketing of sheep or goat products in the United States. Grants are authorized by section 375(e)(3)(A) of the Consolidated Farm and Rural Development Act.

Projects that are submitted in the proposals should be completed in a timely fashion as provided in the proposal, but under no circumstances later than September 30, 2003. The primary objective of the Sheep and Goat Industry Grant Program (SGIG) is to fund a number of diverse projects that will benefit the U.S. sheep or goat industries through product or business development, producer information or education, marketing and promotion for sheep or goats or their products, genetic retention or animal health at the regional, national or international level. The program is administered through USDA, NSIIC.

**Eligible Applicants**

An Eligible entity is an organization that promotes the betterment of the United States sheep or goat industries that is: (A) A public, private, or cooperative organization; (B) an association, including a corporation not operated for profit; (C) a federally recognized Indian Tribe; or (D) a public or quasi-public agency. Eligible entities must have at least 51 percent ownership by those who are either citizens of the United States or reside in the United States after being legally admitted for permanent residence. Under the Lobbying Disclosure Act of 1995, an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 (26 U.S.C. 501 (c)(4)) which engages in lobbying activities, is not eligible to apply.

**Use of Funds**

Use of funds should directly impact the U.S. sheep or goat industries through product or business development, producer information or education, marketing and promotion for sheep or goats or their products, genetic retention, or animal health programs. Funds may not be used to: (a) Pay costs of preparing the application package; (b) pay costs incurred prior to the effective date of the grant; (c) conduct duplicative research; or (d) fund political activities. Preference will be given to proposals that have over 50 percent of the project costs in matching funds, including in kind contributions, and no proposal will be funded if the proposed overhead costs exceed 25 percent.

**Available Funds and Award Limitations**

The total amount of funds available for grants in FY 2002 is approximately \$200,000. It is anticipated that all funds will be awarded in FY 2002 for projects that will be completed by September 30, 2003. It is expected that there will be proposals submitted that address a variety of needs related to the U.S. sheep and goat industries. Awards will be segregated so that a variety of needs will be addressed by the funded proposals. The actual number of grants funded will depend on the quality of proposals received and the amount of funding requested. A proposal may be partially funded or funded in its entirety. The maximum amount of Federal funds through this grant program awarded for any one proposal will be \$50,000.

**Selection Criteria**

The proposal will initially be reviewed to determine whether the entity submitting the proposal meets the

eligibility requirements and whether the proposal application contains the information required. After this initial evaluation, the following criteria will be used to rate and rank proposals received in response to this notice of funding availability. Failure to address any one of the criteria will disqualify the proposal. Equal weight shall be given to each of the criterion listed below and points will be awarded to each criterion on a scale of 5, 4, 3, 2, 1. A score of 5 indicates that the proposal was judged to be highly relevant to the criteria and a score of 1 indicates that the proposal was judged not to sufficiently address the criteria. A proposal with an average score from the NSIIC evaluation panel of less than 2 for any one criterion will disqualify the proposal.

Each proposal criteria area will be evaluated and judged on its own merits using the following criteria:

1. **Potential Industry Impact**—Describe the proposed project and demonstrate how it will stimulate the U.S. sheep or goat industries. Provide a detailed analysis of the sheep or goat industry issue that is being addressed by the proposal by including the: (A) Product or group that will be impacted by the proposal (B) geographic area affected (C) target audience or end user; (D) and expected results. Is the industry issue and need well-defined? Does the proposed project provide an effective and efficient approach to resolving the identified need?

2. **Industry Commitment**—Describe the commitment of the producers, processor, end-users or other involved parties in participating in the proposed project. This may include, but is not limited to, individual producers, producer groups, processors, seminar participants, local organizations, local or state governments or trade associations. Is there a commitment from all who are expected to participate and benefit from the proposed project?

3. **Business Soundness**—Provide a timetable and objectives along with a quantifiable benchmark and expected results. Does the proposal include: (A) A clear objective; (B) well-defined tasks that will accomplish the objectives; (C) realistic benchmarks; (D) a realistic timetable for the completion of the proposed tasks? Has the business strategy been adequately developed?

4. **Financial Feasibility**—Provide a well-defined budget for the proposal. Are the funding requirements and budget for the project well defined and financially feasible? Are matching funds or other resources that will be used to leverage the requested funds in the proposal identified?

5. Management Ability—Identify the management team needed to complete the proposal objectives and describe their qualifications. Is the management team identified, and are they capable of implementing the proposal?

#### Selection Process

The Board of Directors of the NSIIC will evaluate proposal applications. Applications will be evaluated competitively and points awarded as specified in the Selection Criteria section of this notice. Grants will be awarded on a competitive basis to eligible entities. A proposal may be partially funded. After assigning points based upon those criteria, applications will be funded in rank order until all available funds have been expended. The Board of Directors reserves the right to award up to five additional points in order to provide a diversity of projects targeting various situations, geographic areas or subject matter distribution of funded projects. Projects that are approved for further processing will be subject to the grant terms that are negotiated between the applicant and the Board of Directors including, but not limited to, the amount to be funded, project goals, timetables, completion date or other terms as deemed necessary.
