Protection of Stratospheric Ozone; Allocation of Essential Use Allowances for Calendar Year 2002; and Extension of the De Minimis Exemption for Essential Laboratory and Analytical Uses through Calendar Year 2005

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed rulemaking.

SUMMARY: With this action, EPA is proposing to allocate essential-use allowances for import and production of class I stratospheric ozone depleting substances (ODSs) for calendar year 2002. Essential use allowances permit a person to obtain controlled ODSs as an exemption to the January 1, 1996 regulatory phase-out of production and import of these chemicals. EPA allocates essential-use allowances for exempted production or import of a specific quantity of class I ODS solely for the designated essential purpose. Today, EPA is proposing to allocate essential-use allowances for production and import of ODSs for use in medical devices and the Space Shuttle and Titan Rockets, and to extend the general exemption for laboratory and analytical applications through the year 2005 as consistent with the Montreal Protocol.

DIRECTIONS: Comments are to be mailed to Makeba Morris, Chief, Permits and Technical Assessment Branch, Mailcode 3AP11, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103.
