\*The Standards Council of Canada (SCC)  
voted to end its Laboratory Accreditation  
Program for Substance Abuse (LAPSA)  
effective May 12, 1998. Laboratories certified  
through that program were accredited to  
conduct forensic urine drug testing as  
required by U.S. Department of  
Transportation (DOT) regulations. As of that  
date, the certification of those accredited  
Canadian laboratories will continue under  
DOT authority. The responsibility for  
conducting quarterly performance testing  
plus periodic on-site inspections of those  
LAPSA-accredited laboratories was  
transferred to the U.S. DHHS, with the  
DHHS' National Laboratory Certification  
Program (NLCP) contractor continuing to  
have an active role in the performance testing  
and laboratory inspection processes. Other  
Canadian laboratories wishing to be  
considered for the NLCP may apply directly  
to the NLCP contractor just as U.S.  
laboratories do.

Upon finding a Canadian laboratory to be  
qualified, the DHHS will recommend that  
DOT certify the laboratory (**Federal Register**,  
16 July 1996) as meeting the minimum  
standards of the "Mandatory Guidelines for  
Workplace Drug Testing" (59 **Federal**  
**Register**, 9 June 1994, Pages 29908-29931).

After receiving the DOT certification, the  
laboratory will be included in the monthly  
list of DHHS certified laboratories and  
participate in the NLCP certification  
maintenance program.
