

*Objectives.*

At the scoping meetings, the staff will: (1) Summarize the environmental issues tentatively identified for analysis in the APEA; (2) solicit from the meeting participants all available information, especially quantifiable data, on the resources at issue; (3) encourage statements from experts and the public on issues that should be analyzed in the APEA, including viewpoints in opposition to, or in support of, the staff's preliminary views; (4) determine the resource issues to be addressed in the APEA; and (5) identify those issues that require a detailed analysis, as well as those issues that do not require a detailed analysis.

*Procedures.*

The meetings will be recorded by a stenographer and will become part of the formal record of the Commission proceeding on the project.

Individuals, organizations, and agencies with environmental expertise and concerns are encouraged to attend the meetings and to assist AEC in defining and clarifying the issues to be addressed in the APEA.

**David P. Boergers,**

*Secretary.*

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

#### Sunshine Act Meeting

October 31, 2001.

The following notice of meeting is published pursuant to section 3(A) of the Government in the Sunshine Act (Pub. L. No. 94-409), 5 U.S.C 552B:

**AGENCY HOLDING MEETING:** Federal Energy Regulatory Commission.

**DATE AND TIME:** November 7, 2001, 10 a.m.

**PLACE:** Room 2C, 888 First Street, NE., Washington, DC 20426.

**STATUS:** Open.

**MATTERS TO BE CONSIDERED:** Agenda

\*NOTE—Items listed on the agenda may be deleted without further notice.

**CONTACT PERSON FOR MORE INFORMATION**

**SECRETARY:** David P. Boergers, Telephone (202) 208-0400, for a recording listing items stricken from or added to the meeting, Call (202) 208-1627.

This is a list of matters to be considered by the commission. It does not include a listing of all papers relevant to the items of the agenda; however, all public documents may be

examined in the reference and information center.

#### 778th—Meeting November 7, 2001; Regular Meeting 10 a.m.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-7099-4]

### Agency Information Collection Request Activities: Proposed Collection and Comment Request for the Outer Continental Shelf Air Regulation

**AGENCY:** Environmental Protection  
Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the  
Paperwork Reduction Act (44 U.S.C.  
3501 *et seq.*), this notice announces that  
EPA is planning to submit the following  
proposed and continuing Information  
Collection Request (ICR) to the Office of  
Management and Budget (OMB): Outer  
Continental Shelf Air Regulations, ICR

number 1601.04, and OMB Control  
Number 2060.0250, expiration date:  
March 31, 2001. Before submitting the  
ICR to OMB for review and approval,  
EPA is soliciting comments on specific  
aspects of the proposed information  
collection as described below.

**DATES:** Comments must be submitted on  
or before January 7, 2002.

**ADDRESSES:** A copy of the supporting  
statement may be obtained from the  
Ozone Policy and Strategies Group, Air  
Quality Strategies and Standards  
Division, Office of Air Quality Planning  
and Standards, MD-15, Research  
Triangle Park NC 27711 or is available  
electronically at [http://www.epa.gov/  
ttn/oarpg](http://www.epa.gov/ttn/oarpg) under "Search OAR P&G,"  
type in Outer Continental Shelf Air  
Regulations.

Comments must be mailed to David  
Sanders, Ozone Policy and Strategies  
Group, Air Quality Strategies and  
Standards Division, C539-02,  
Environmental Protection Agency,  
Research Triangle Park, NC 27711.

**FOR FURTHER INFORMATION CONTACT:**

David Sanders, telephone: (919) 541-  
3356, Facsimile: (919) 541-0824; E-  
Mail: [sanders.dave@epa.gov](mailto:sanders.dave@epa.gov).

**SUPPLEMENTARY INFORMATION:**

*Affected entities:* Entities potentially  
affected by this action are all outer  
continental shelf sources except those  
located in the Gulf of Mexico west of  
87.5 degrees longitude (near the border  
of Florida and Alabama). For sources  
located within 25 miles of States'  
seaward boundaries, the requirements  
are the same as those that would be  
applicable if the source were located in  
the corresponding onshore area (COA).  
In States affected by this rule, State  
boundaries extend three miles from the  
coastline, except off the coast of the  
Florida Panhandle, where that State's  
boundary extends three leagues (about  
nine miles) from the coastline.

*Title:* Outer Continental Shelf Air  
Regulations, EPA ICR Number 1601.04  
and OMB Control Number 2060.0250,  
expiration date: September 30, 2001.

*Abstract:* Sources located beyond 25  
miles of States' boundaries are subject to  
Federal requirements (implemented and  
enforced solely by EPA) for Prevention  
of Significant Deterioration (PSD), New  
Source Performance Standards (NSPS),  
National Emissions Standards for  
Hazardous Air Pollutants Standards  
(NESHAPS), the Federal operating  
permit program, and the enhanced  
compliance and monitoring regulations.  
Before any agency, department, or  
instrumentality of the Federal  
government engages in, supports in any  
way, provides financial assistance for,  
licenses, permits, approves any activity,

that agency has the affirmative  
responsibility to ensure that such action  
conforms to the State implementation  
plan (SIP) for the attainment and  
maintenance of the national ambient air  
quality standards (NAAQS). An agency  
may not conduct or sponsor, and a  
person is not required to respond to, a  
collection of information unless it  
displays a currently valid OMB control  
number. The OMB control numbers for  
EPA's regulations are listed in 40 CFR  
part 9 and 48 CFR chapter 15. Section  
176(c) of the Clean Air Act (42 U.S.C.  
7401 *et seq.*) requires that all Federal  
actions conform with the SIPs to attain  
and maintain the NAAQS. Depending  
on the type of action, the Federal  
entities either collect the information  
themselves, hire consultants to collect  
the information or require applicants/  
sponsors of the Federal action to  
provide the information.

The type and quantity of information  
required will depend on the  
circumstances surrounding the action.  
First, the entity must make an  
applicability determination. If the  
source is located within 25 miles of the  
States' seaward boundaries as  
established in the regulations, the  
requirements are the same as those that  
would be applicable if the source were  
located in the COA. State and local air  
pollution control agencies are usually  
requested to provide information  
concerning regulation of offshore  
sources and are provided opportunities  
to comment on the proposed  
determinations. The public is also  
provided an opportunity to comment on  
the proposed determinations.

The EPA would like to solicit  
comments to:

(i) Evaluate whether the proposed  
collection of information is necessary  
for the proper performance of the  
functions of the agency, including  
whether the information will have  
practical utility;

(ii) evaluate the accuracy of the  
agency's estimate of the burden of the  
proposed collection of information,  
including the validity of the  
methodology and assumptions used;

(iii) enhance the quality, utility, and  
clarity of the information to be  
collected; and

(iv) minimize the burden of the  
collection of information on those who  
are to respond, including through the  
use of appropriate automated electronic,  
mechanical, or other technological  
collection techniques or other forms of  
information technology, e.g., permitting  
electronic submission of responses.
