Submission for OMB Review; Comment Request

Title: TANF Time Limits Questionnaire.

OMB No.: New Collection.

Description: The imposition of federally imposed time limits on the receipt of cash assistance under the Temporary Assistance to Needy Families (TANF) program was a central and major part of welfare reform. The earliest that TANF recipients could be affected by the 60-month Federal limit will be in the last quarter of 2001. The purpose of the TANF Time Limits project is to document what is known about this important element of welfare reform as the period for TANF re-authorization approaches. The proposed survey instrument is intended to obtain "real-time" information from those States in which TANF recipients could have reached the 60 month limit on receipt of federally funded assistance in the last quarter of calendar year 2001 or terminated earlier under a State specific time limit. The instrument is designed to gather preliminary information about the number of families accumulating 60 months of benefits, the outcomes for such families (e.g., cases closed, benefits extended with Federal funds, benefits extended with State funds), and the policies and practices of states to work with families approaching or reaching the Federal and State time limit.

Respondents: The primary respondents for the questionnaire are those States that implemented TANF before February 1997. States that implemented TANF later might also be surveyed.
