Migratory Bird Hunting and Permits; Regulations for Managing Harvest of Light Goose Populations; Correction

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule; correction.

SUMMARY: On October 12, 2001 the U.S. Fish and Wildlife Service published a proposal to authorize new regulations to increase harvest of overabundant light goose populations (greater and lesser snow geese and Ross' geese). Such regulations are proposed for States in the Atlantic, Mississippi, and Central Flyways. This correction adds New Jersey to the list of Atlantic Flyway States being proposed for eligibility for such regulations.

DATES: Comments on this proposed rule must be received by December 14, 2001.

ADDRESSES: 1. Comments should be mailed to Chief, Division of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, ms 634—ARLSQ, 1849 C Street, NW., Washington, DC 20240. SUPPLEMENTARY INFORMATION: On October 5, 2001 (66 FR 51274) we notified the public of the availability of a Draft Environmental Impact Statement (DEIS) on light goose management. The DEIS analyzes several alternatives for addressing habitat degradation associated with overabundant light goose populations. On October 12, 2001 (66 FR 52077) we published a proposed rule to authorize new regulations that would increase harvest of certain light goose populations in the Atlantic, Mississippi, and Central Flyways. The proposal corresponds to our preferred alternative identified in the DEIS. We inadvertently omitted New Jersey from the list of States that are proposed as being eligible to implement special light goose regulations. This correction adds New Jersey to the list of eligible States.
