## FEDERAL EMERGENCY MANAGEMENT AGENCY

### 44 CFR Part 67

[Docket No. FEMA-B-7421]

#### Proposed Flood Elevation Determinations

**AGENCY:** Federal Emergency Management Agency (FEMA).

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are requested on the proposed Base (1% annual chance) Flood Elevations (BFEs) and proposed BFE modifications for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

**ADDRESSES:** The proposed BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

#### FOR FURTHER INFORMATION CONTACT:

Matthew B. Miller, P.E., Chief, Hazards Study Branch, Federal Insurance and Mitigation Administration, FEMA, 500 C Street SW., Washington, DC 20472, (202) 646-3461, or (e-mail) matt.miller@fema.gov.

#### SUPPLEMENTARY INFORMATION: FEMA

proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with Section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

#### National Environmental Policy Act

This proposed rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

#### Regulatory Flexibility Act

The Acting Administrator, Federal Insurance and Mitigation Administration certifies that this proposed rule is exempt from the

requirements of the Regulatory Flexibility Act because proposed or modified BFEs are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the NFIP. No regulatory flexibility analysis has been prepared.

#### Regulatory Classification

This proposed rule is not a significant regulatory action under the criteria of Section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

#### Executive Order 12612, Federalism

This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

#### Executive Order 12778, Civil Justice Reform

This proposed rule meets the applicable standards of Section 2(b)(2) of Executive Order 12778.

#### List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR Part 67 is proposed to be amended as follows:

#### PART 67—[AMENDED]

1. The authority citation for Part 67 continues to read as follows:

## CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

### 45 CFR Part 2553

RIN 3045-AA31

#### Retired and Senior Volunteer Program; Amendments

**AGENCY:** Corporation for National and Community Service.

**ACTION:** Proposed rule.

**SUMMARY:** The amendments to the Regulation governing the Retired and Senior Volunteer Program include: improving access of persons with limited English speaking proficiency; and increasing sponsor flexibility to use project resources as needed.

**DATES:** Submit comments on or before January 14, 2002.

**ADDRESSES:** Send comments to the Corporation for National and Community Service, National Senior Service Corps, Attn: Mr. John B. Keller, 9th Floor, 1201 New York Avenue, NW., Washington, DC 20525.

**FOR FURTHER INFORMATION CONTACT:** John B. Keller, 202-606-5000, ext. 285.

#### SUPPLEMENTARY INFORMATION:

##### Background

The Regulation that is the subject of this amendment implemented changes to the Domestic Volunteer Service Act of 1973, as amended, and established or clarified minimum program requirements. The following changes to the Regulation are now being proposed:

(1) Executive Order 13166 issued August 11, 2000, requires that each Federal agency develop a plan to improve access to its programs by eligible persons who, as a result of national origin, are limited in their English proficiency. The Corporation's intent is to amend the regulations to improve access of persons with limited English proficiency.

(2) RSVP sponsors requested increased flexibility to use project resources as needed to respond to critical community needs. The Corporation concurs with this request and supports amending the regulation to permit such flexibility.

#### List of Subjects in 45 CFR Part 2553

Aged, Grant programs-social programs, Volunteers.

For the reasons set forth in the preamble, the Corporation for National and Community Service proposes to amend 45 CFR part 2553 as follows:

## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Part 15

[ET Docket No. 01-278; FCC 01-290]

#### Part 15 Biennial Review

**AGENCY:** Federal Communications Commission.

**ACTION:** Proposed rule; denial.

**SUMMARY:** This document responds to a petition filed by National Association for Amateur Radio (ARRL). The petition

requested that the Commission modify its rules that have or may have a significant economic impact on a substantial number of small entities. The Commission believes that these rules are sufficient to protect against harmful interference to authorized radio services and that additional advisory language in the Commission's rules is unnecessary. The ARRL petition is denied.

**FOR FURTHER INFORMATION CONTACT:** Hugh Van Tuyl, Office of Engineering and Technology, (202) 418-7506.

**SUPPLEMENTARY INFORMATION:** This is a summary of the Commission's *Order*, ET Docket No. 01-278, FCC 01-290, adopted October 2, 2001, and released October 15, 2001. The full text of this Commission decision is available on the Commission's Internet site at [www.fcc.gov](http://www.fcc.gov). It is available for inspection and copying during normal business hours in the FCC Reference Information Center, Room CY-A257, 445 12th Street, SW., Washington, DC, and also may be purchased from the Commission's duplication contractor, Qualex International, (202) 863-2893, Room CY-B402, 445 12th Street, SW., Washington, DC 20554.

#### Summary of the Order

1. In this *Order*, we deny a petition filed by the National Association for Amateur Radio (ARRL). The Regulatory Flexibility Act requires federal agencies to conduct periodic reviews of rules that have or might have a significant economic impact on a substantial number of small entities. Pursuant to section 610 of the Regulatory Flexibility Act, agencies must publish a list of such rules in the **Federal Register** and invite public comment on the rules. The Commission released a Public Notice on September 24, 1999 identifying rules for possible modification or elimination under the Regulatory Flexibility Act. *See Public Notice FCC Seeks Comment Regarding Possible Revision or Elimination of Rules under the Regulatory Flexibility Act*, 5 U.S.C. 610, Mimeo 95371, 64 FR 55671, October 14, 1999.

2. In response to this public notice, ARRL requested that the Commission modify § 15.17 of the rules. Section 15.17 of the rules provides a warning to manufacturers that they should consider the proximity and high power of both government and non-government operations when selecting operating frequencies.

3. In reviewing rules for modification or elimination under the Regulatory Flexibility Act, the Commission considers the following factors: "(1) the
