

trading crowd to ensure that public orders are filled at the best market to a minimum of the disseminated size. In addition, Phlx Options Floor Procedure Advice F-7 provides that the size of any disseminated bid or offer by the Exchange shall be equal to the AUTO-X guarantee for the quoted option and shall be firm, except that the disseminated size of bids and offers of limit orders on the book shall be 10 contracts and shall be firms, regardless of the actual size of the orders. Violations of any of these provisions could be referred to the Business Conduct Committee for disciplinary action.

The Wheel is a mechanism that allocates AUTO-X trades among specialists and Registered Options Traders ("ROTs").⁷ An ROT has discretion to participate on the Wheel to trade any option class to which he is assigned. An increase in the maximum AUTO-X order size in QQQ options does not prevent an ROT from declining to participate on the Wheel. Because the wheel rotates in two-lot to ten-lot increments depending upon the size of the order,⁸ no single ROT will be allocated the entire 250 contracts.

The Exchange also has procedures that permits a specialist to disengage AUTO-X in extraordinary circumstances.⁹ The Exchange represents that AUTOM users will be notified of such circumstances.

With respect to financial responsibility issues, the Exchange notes that it has a minimum net capital requirement respecting ROTs.¹⁰ Furthermore, an ROT's clearing firm performs risk management functions to ensure that the ROT has sufficient financial resources to cover positions throughout the day. In this regard, the function includes real-time monitoring of positions. The Exchange believes that clearing firm procedures address the issue of whether an ROT has the financial capability to support the Auto-X trading of orders in QQQ options as large as 250 contracts.

The Exchange believes that automatic execution of orders in QQQ options for up to 250 contracts should provide customers with quicker executions for a larger number of orders by providing automatic rather than manual executions, thereby reducing the number of orders subject to manual processing. The Exchange also believes

that increasing the AUTO-X maximum order size in QQQ options should not impose a significant burden on operation or capacity of the AUTOM system and will give the Exchange better means of competing with other options exchanges for order flow.

2. Statutory Basis

For the reasons stated above, the Exchange believes the proposed rule change is consistent with Section 6(b) of the Act¹¹ in general, and furthers the objectives of Section 6(b)(5) of the Act¹² in particular, because it is designed to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest by providing automatic executions to a larger number orders in QQQ options.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on comments on the Proposed rule Change Received from Members, Participants or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Exchange consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change, as amended, is consistent with

the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the Phlx. All submissions should refer to File No. SR-Phlx-2001-89 and should be submitted by December 6, 2001.

For the Commission, by the Division of Market Regulation, Pursuant to delegated authority.¹³

Margaret H. McFarland,
Deputy Secretary.
