

management of regional or national HIV/AIDS training programs and HIV/AIDS care facilities and programs.

HRSA will assist the IAETC to identify the countries, institutions, and in-country stakeholders with which the IAETC will collaborate. Initial partners are likely to be in Africa and India. However, the number and variety of requests for assistance are expected to expand as relationships develop and additional countries in the Caribbean, Asia, and Latin America finalize specific HIV/AIDS care and support plans. Country needs and resources will vary, so the IAETC must be prepared and able to tailor its response based on the country profile. Because of the diversity in populations and differences in the epidemic, healthcare infrastructure, and educational resources, HRSA expects that a range of ideas and approaches will be implemented.

As an active partner in this cooperative agreement, HRSA will have significant involvement with the applicant regarding program plans, policies and other issues which may have major implications for any activities undertaken by the applicant under the cooperative agreement. HRSA will provide consultation and technical assistance in planning, operating, and evaluating program activities. HRSA will also facilitate the collaboration with program partners, such as CDC/Atlanta, CDC field offices, USAID, foreign governments, and other key stakeholders.

Availability of Funds

It is anticipated that a single recipient will be selected for the IAETC and is expected to be approximately \$500,000 for the initial budget period. Initial funding will be available for 6 months, while subsequent budget periods will be 12 months. The entire project period will be three and one-half years. Continuation awards will be made on the basis of satisfactory progress and the availability of funds. Additional funding may be made available from collaborating U.S. agencies.

Applications are due January 22, 2002.

Applications will be reviewed according to the following criteria: Organizational Capacity and Qualifications; Management Plan, Staffing, Organization, and Resources; Adequacy of the Proposed Plan for Initial Needs Assessment and Plan for Building Training Capacity; Program Collaboration and Linkages; Program Evaluation and Quality Improvement; Appropriateness and Justification of the Budget; and Adherence to Program Guidance.

Eligible Applicants

Eligible applicants are public and nonprofit private entities and schools and academic health sciences centers, which are currently funded AIDS Education Training Centers.
