Supplement to the Environmental Impact Statement for the General Management Plan, Organ Pipe Cactus National Monument

AGENCY: National Park Service, Department of the Interior.

ACTION: Availability of final Supplemental Environmental Impact Statement (SEIS) for re-analysis of cumulative impacts on the Sonoran Pronghorn, Organ Pipe Cactus National Monument, Arizona.

SUMMARY: Pursuant to section 102 (2) (c) the National Environmental Policy Act of 1969, the National Park Service announces the availability of a SEIS for Cumulative Impacts on the Sonoran Pronghorn, Organ Pipe Cactus National Monument, Arizona.

DATES: The SEIS will remain available for public review for 30 days from the publication of this notice. If any public meetings are held concerning the SEIS, they will be announced at a later date.

COMMENTS: If you wish to comment, you may submit your comments by any one of several methods. You may mail comments to Superintendent, Organ Pipe Cactus National Monument, 10 Organ Pipe Drive, Ajo, AZ 85321. Please also include: "Ref: Supplemental EIS, Sonoran Pronghorn".

You may also comment via the Internet to [Laurie Domler@nps.gov](mailto:Laurie.Domler@nps.gov). Please submit Internet comments as an

ASCII file avoiding the use of special characters and any form of encryption. Please also include "Ref: Supplemental EIS, Sonoran Pronghorn". Please include your name and return address in your Internet message. Finally, you may hand-deliver comments to Organ Pipe Cactus National Park, Headquarters, 10 Organ Pipe Drive, Ajo AZ 85321. Our practice is to make comments, including names and home addresses of respondents available for public review during regular business hours. Individual respondents may request that we withhold their home address from the record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the record a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses available for public inspection in their entirety.

ADDRESSES: Copies of the SEIS for re-analysis of Cumulative Impacts on the Sonoran Pronghorn are available from the Superintendent, Organ Pipe Cactus National Monument, 10 Organ Pipe Drive, Ajo, AZ 85321. Public reading copies of the SEIS will be available for review at the following locations:

Office of the Superintendent, Organ Pipe Cactus National Monument, 10 Organ Pipe Drive, Ajo, AZ 85321, Telephone: (520) 387-7661.

Planning and Environmental Quality, Intermountain Support Office—Denver, National Park Service, 12795 W. Alameda Pkwy., Denver, CO 80225-0287, Telephone: (303) 969-2036.

Office of Public Affairs, National Park Service, Department of Interior, 18th and C Streets NW, Washington DC 20240, Telephone: (202) 208-6843.

SUPPLEMENTARY INFORMATION: The Organ Pipe Cactus National Monument Final General Management Plan/Development Concept Plans/Environmental Impact Statement was approved in 1997. On February 12, 2001, The United States District Court for the District of Columbia (Civil Action No. 99-927) found that the EIS did not fully comply with the National Environmental Policy Act (NEPA) of 1969 because the cumulative impacts (re: Sonoran pronghorn) of all agency activities were not fully analyzed.

The major issue to be addressed in the EIS Supplement is the Sonoran Pronghorn. The pronghorn, one of five subspecies of pronghorn, has evolved in a unique desert environment and has distinct adaptations to this environment that distinguish it from other subspecies. In 1967, the US Fish and Wildlife Service (USFWS) designated the Sonoran Pronghorn as endangered. The most recent estimates indicate that approximately 100 pronghorn exist in the United States today. The only habitat in which Sonoran pronghorn currently remain in the United States is federally-owned land in Southwest Arizona. The court order declared that the USFWS issued Biological Opinions that failed to address the impacts of the National Park Service and other surrounding federal agencies current and planning activities on the pronghorn in an "environmental baseline". The court order also declared that the National Park Service issued an environmental impact statement that failed to address the cumulative impacts of their activities on the pronghorn, when added to other past, present, and reasonable foreseeable future actions, regardless of what agency undertakes those actions.

Pursuant to the court order, the National Park Service, through a supplement to the GMP/EIS, re-analyzes the cumulative impacts of actions on the Sonoran Pronghorn that were not fully considered at the time of its GMP, regardless of what agency undertakes those actions. Two alternatives that were contained in the Final General Management Plan/Development Concept Plans/Environmental Impact Statement are analyzed; (A) Existing Conditions/No Action; and (B) New Proposed Action. In order to present the current environmental baseline at the park, Alternative (A) Existing Conditions/No Action has been updated with those actions, authorized by the plan, that have either occurred since its approval or are currently underway. Alternative (B) New Proposed Action, appears exactly as it did in the approved plan.

Under Alternative (B) New Proposed Action, the cumulative impacts of all Federal and non-Federal actions are likely to result in a continued, incremental reduction in the ability of Sonoran pronghorn to maintain a viable population in the United States. Although there are many beneficial action include in this cumulative scenario, they are outweighed by adverse impacts.

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Intent To Prepare an Environmental Impact Statement for the Special Resource Study on the Lincoln Highway Between New York and California

AGENCY: National Park Service, Interior.

SUMMARY: Under provisions of the National Environmental Policy Act of 1969, the National Park Service (NPS) is preparing an environmental impact statement (EIS) for the special resource study (SRS) on the Lincoln Highway (Highway) between New York and California. The purpose of the study is to investigate methods to preserve the historical significance of the highway and the role it played in American popular culture, and to determine the degree and kind of federal actions (if any) necessary to achieve such preservation. The study is being prepared pursuant to Pub. L. 106-563.

To facilitate sound planning and environmental assessment, the NPS intends to gather information necessary for the preparation of the EIS, and to obtain suggestions and information from other agencies and the public on the scope of issues to be addressed in the EIS. Comments and participation in this scoping process are invited.

ADDRESSES: Written comments and information concerning preparation of the SRS/EIS or issues to be addressed in the SRS/EIS should be sent to Ruth Heikkinen, Project Leader, National Park Service, Midwest Regional Office, 1709 Jackson Street, Omaha, Nebraska 68102, *ruth—heikkinen@nps.gov*.

DATES: Any comments on the scope of issues to be addressed in the EIS should be received no later than February 15, 2002.

FOR FURTHER INFORMATION CONTACT: Ruth Heikkinen at the address above or at telephone 402-221-7285. Direct requests to be added to the project mailing list to the same address.

SUPPLEMENTARY INFORMATION: The SRS/EIS will address a range of alternatives including potential roles for the NPS in preservation and interpretation of resources and stories related to the

Lincoln Highway. In summary, the SRS will present findings on five topics:

(1) Determination of the national significance of the Lincoln Highway and associated resources;

(2) Determination of the suitability of the Highway and related resources to be included within the National Park System in relation to other sites of the same theme;

(3) Determination of feasibility for the NPS to own, manage, or participate in the conservation and interpretation of resources related to the Highway;

(4) Determination of the need for NPS management of any resources;

(5) Identification of alternatives for any potential role for the NPS in the future.

The EIS will assess the impacts of the alternatives for NPS participation. The responsible federal official is Mr. William Schenk, Regional Director, Midwest Region, National Park Service.

Our practice is to make comments, including names and addresses of respondents, available for public review. If you wish for us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will honor the request to the extent allowable by law. We are not required to consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials or organizations or businesses, available for public inspection in their entirety.

Dated: October 24, 2001.

William W. Schenk,

Regional Director.
