

use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., allowing electronic submission of responses.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.26 hours per response.

Respondents/Affected Entities: Generators, transporters, and treatment, storage, and disposal facilities (TSDFs).

Estimated Number of Respondents: 105,558.

Frequency of Response: Per shipment of hazardous waste.

Estimated Total Annual Hour Burden: 2,920,383 hours.

Estimated Total Annualized Capital, Operating/Maintenance Cost Burden: \$1,871,246. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: November 20, 2001.

Elizabeth A. Cotsworth,

Director, Office of Solid Waste.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7109-2]

Notice of Availability for Draft Guidance on Source Determinations for Combined Heat and Power Facilities Under the Clean Air Act New Source Review and Title V Programs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability; reopening of comment period.

SUMMARY: The EPA is hereby reopening for 15 days the public review and comment period regarding a preliminary draft of its pending guidance on Source Determinations for Combined Heat and

Power (CHP) Facilities under the Clean Air Act New Source Review and Title V Programs (66 FR 52403, October 15, 2001). The combined generation of heat and power, also known as cogeneration, has been an energy supply option for nearly 100 years and is used in many sectors of the economy. In light of ever increasing demand for energy, electric power industry restructuring and cross-program pollution prevention initiatives, EPA is committed to improving the efficiency at which we convert fuels into useful energy. Properly designed and implemented CHP is a key element to achieving the nation's energy goals, because CHPs are capable of independently providing power to the grid or customers other than the host facility and therefore can help alleviate power shortfalls. Recognizing this, the Report of the National Energy Policy Development Group recommends "that the President direct the EPA Administrator to promote CHP through flexibility in environmental permitting."

A draft of EPA's guidance is available for public review and comment. The EPA does not intend to respond to individual comments, but rather to consider the comments from the public in the preparation of the final guidance. It is important that the draft guidance being made available today for public review and comment does not represent official EPA policy or a formal position on the subject matter discussed and therefore is not to be relied on in interpreting EPA policy.

DATES: The comment period on the draft guidance will close on December 12, 2001.

ADDRESSES: Written comments should be sent to Pamela J. Smith, Information Transfer and Program Integration Division (MD-12), Office of Air Quality Planning and Standards, U.S. EPA, Research Triangle Park, North Carolina 27711, telephone 919-541-0641, telefax 919-541-5509 or E-mail smith.pam@epa.gov.

FOR FURTHER INFORMATION CONTACT: Kathy Kaufman, Office of Air Quality Planning and Standards, U.S. EPA, MD-12, Research Triangle Park, NC 27711, telephone 919-541-0102 or E-mail kaufman.kathy@epa.gov.

SUPPLEMENTARY INFORMATION: A copy of the draft guidance document may be obtained by calling or E-mailing Pamela J. Smith. The draft guidance may also be downloaded from the NSR Web Site <http://www.epa.gov/ttn/nsr> under the topic "What's New on NSR."

Dated: November 16, 2001.

Jeffrey Clark,

Acting Director, Office of Air Quality Planning and Standards.

FEDERAL COMMUNICATIONS COMMISSION

[CC Docket No. 01-194; FCC 01-338]

Joint Application by SBC Communications Inc., Southwestern Bell Telephone Company, and Southwestern Bell Communications Services, Inc. d/b/a Southwestern Bell Long Distance To Provide In-Region, InterLATA Service in the States of Arkansas and Missouri

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the Federal Communications Commission (Commission) grants the section 271 application of Southwestern Bell Telephone Company (SWBT) for authority to enter the interLATA telecommunications market in the States of Arkansas and Missouri. The Commission grants SWBT's application based on our conclusion that Southwestern Bell satisfies all of the statutory requirements established by Congress in section 271 of the Communications Act.

DATES: Effective November 26, 2001.

FOR FURTHER INFORMATION CONTACT: Scott Bergmann, Legal Counsel, Common Carrier Bureau, at (202) 418-1580, or via the Internet at sbergman@fcc.gov. The full text of the Order is available for inspection and copying during normal business hours in the FCC Reference Information Center, CY-A257, 445 12th Street, SW., Washington, DC 20554. Further information may also be obtained by calling the Common Carrier Bureau's TTY number: (202) 418-0484.

SUPPLEMENTARY INFORMATION: This document is a brief description of the Commission's Memorandum Opinion and Order adopted November 16, 2001, and released November 16, 2001. The full text also may be obtained through the World Wide Web, at <<http://www.fcc.gov/Bureaus/Common_Carrier/in-region_applications/sbcsok/welcome.html>>, or may be purchased from the Commission's copy contractor, Qualex International Transcription Service Inc. (ITS), CY B-402, 445 12th Street, SW., Washington, DC.
