NUCLEAR REGULATORY COMMISSION

Draft Regulatory Guide and Draft Standard Review Plan; Issuance, Availability

The Nuclear Regulatory Commission has issued for public comment a draft of a regulatory guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public such information as methods acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques used by the staff in evaluating specific problems or postulated accidents, and data needed by the staff in its review of applications for permits and licenses.

The draft guide, temporarily identified as DG-1085 (which should be mentioned in all correspondence concerning this draft guide), is "Standard Format and Content of Decommissioning Cost Estimates for Nuclear Power Reactors." DG-1085 is being developed to provide guidance to licensees on the various cost estimates that are required for different stages and methods of decommissioning nuclear power reactors.

A conforming document, Draft NUREG-1713, "Standard Review Plan for Decommissioning Cost Estimates for Nuclear Power Reactors," is also being issued for public comment. The NRC

staff plans to use Draft NUREG-1713 in their review of licensees' cost estimates for decommissioning that are submitted to the NRC.

The NRC staff is soliciting comments on these draft documents and will incorporate appropriate changes to these documents based on the comments received.

This draft guide and draft standard review plan have not received complete staff approval and do not represent an official NRC staff position.

Comments may be accompanied by relevant information or supporting data. Written comments may be submitted to the Rules and Directives Branch, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Copies of comments received may be examined at the NRC Public Document Room, 11555 Rockville Pike, Rockville, MD. Comments will be most helpful if received by January 30, 2002.

SOCIAL SECURITY ADMINISTRATION

Agreement on Social Security Between the United States and Chile; Entry Into Force

AGENCY: Social Security Administration.

ACTION: Notice.

SUMMARY: The Commissioner of Social Security gives notice that an agreement coordinating the United States (U.S.) and Chilean social security programs will enter into force on December 1, 2001. The agreement with Chile, which was signed on February 16, 2000, is similar to U.S. social security agreements already in force with 18 other countries—Austria, Belgium, Canada, Finland, France, Germany, Greece, Ireland, Italy, Korea (South), Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and the United Kingdom. Agreements of this type are authorized by section 233 of the Social Security Act.

Like the other agreements, the U.S.-Chilean agreement eliminates dual social security coverage—the situation that exists when a worker from one country works in the other country and is covered under the social security systems of both countries for the same work. When dual coverage occurs, the worker or the worker's employer or both may be required to pay social security contributions to the two countries simultaneously. Under the U.S.-Chilean agreement, a worker who is sent by an employer in one country to work in the other country for 5 years or less remains covered only by the sending country. The agreement includes additional rules that eliminate dual U.S. and Chilean coverage in other work situations.

The agreement also helps eliminate situations where workers suffer a loss of benefit rights because they have divided their careers between the two countries. Under the agreement, workers may qualify for partial U.S. benefits or partial
