### SUPPLEMENTARY INFORMATION:

#### I. Description of the Proposed Systems of Records

The Compliance and Business Integrity (CBI) Program, although originally modeled after Health and Human Services (HHS)—Office of Inspector General's (OIG) hospital compliance program, has evolved into a program that meets program requirements specific to VA. Management of the CBI Program falls under the direction of the VHA Chief Financial Officer (CFO). The CBI Program assures the organizational and business structure within which patient care takes place is in compliance with laws, regulations, policies and standards, which impact the business. It also reduces business risk and serves as a management function that is interdisciplinary in nature, focuses on business processes and acts as a fiduciary of public resources. An integral component of the Compliance and Business Integrity (CBI) Program is the establishment of a Confidential Disclosure Program (CDP) designed to ensure activities of VHA are conducted in compliance with public law, established regulations and recognized standards of business practice. The CDP assures integrity of business and operational processes within VHA by providing a mechanism for employees to raise questions and report concerns about potential non-compliance and is consistent with similar reporting and tracking mechanisms identified by HHS—OIG as integral to effective health care compliance programs. Two elements of the CDP are the CBI Helpline and the Compliance Reporting and Tracking System (CIRTS). Together, they comprise the core of the CDP. VHA has contracted for the CBI Helpline, which serves as an anonymous avenue for employees and others to access the CDP in an attempt to assure the integrity of VHA business and operational processes.

The CBI Helpline is established to control the receipt and disposition of reports and/or concerns related to the following VHA areas: Enrollment; Means Testing; Eligibility; Pre-certification and certification/utilization review; Standards pertaining to documentation, coding and billing; Audits, reviews, inquiries and remediation; Accounts receivable and
