

the deletion from the NPL are available to the public in the information repository noted above.

Quarterly, informal public meetings were held in the surrounding towns from 1991 to December 2000 and prior to and after each remedial action. Representatives from EPA, MADEP, and the Army with their consultants and contractors were present. These meetings proved to be extremely helpful in providing the public, especially the residents of adjoining neighborhoods, with important information regarding activities associated with all the investigations and each remedial action. These meetings were also particularly useful for the agencies and the Army in hearing and addressing the residents' concerns regarding on-site activities. The Army plans to continue these informal meetings to announce the findings of five-year reviews. The most recent meeting was held on November 14, 2001.

V. Deletion Action

The EPA, with concurrence from the Commonwealth of Massachusetts, has determined that all appropriate responses under CERCLA have been completed, and that no further response actions under CERCLA are necessary. Therefore, EPA is deleting the Site from the NPL.

Because EPA considers this action to be noncontroversial and routine, EPA is taking it without prior publication of a notice of intent to delete. This action will become effective January 29, 2002 unless EPA receives adverse comments by December 31, 2001. If adverse comments are received within the 30-day public comment period, EPA will publish a timely withdrawal of this direct final notice of deletion before the effective date of the deletion and it will not take effect. EPA will prepare a response to comments, as appropriate, and continue with the traditional deletion process on the basis of the notice of intent to delete and the comments already received. There will be no additional opportunity to comment. If EPA receives no adverse comment(s), this deletion will become effective January 29, 2002.
