SUPPLEMENTARY INFORMATION: The purpose of this notice is to announce that on December 1, 2001, the Federal operating permits program consistent with the requirements of Title V of the Clean Air Act (the Act) as set forth under 40 CFR part 71 (part 71 program) will be effective in the State of Maryland. Furthermore, effective December 1, 2001, EPA is granting the Maryland Department of the Environment's (MDE's) request for full delegation of authority to implement and enforce the part 71 Federal operating permits program. Under this delegation, EPA retains its authority to (1) object to the issuance of any part 71 permit, (2) act upon petitions submitted by the public, and (3) collect fees from

all owners or operators of sources subject to 40 CFR part 71 if it is demonstrated that MDE is not adequately implementing the part 71 program in accordance with the Delegation of Authority Agreement, 40 CFR part 71, and/or the Act. The procedures for full delegation are specified in a Delegation of Authority Agreement between EPA Region III and MDE signed and dated on November 27, 2001.

On October 30, 1995 (60 FR 55231), the EPA published a proposed rule to grant interim approval of Maryland's operating permits program, submitted to EPA pursuant to Title V of the Act and 40 CFR part 70 (part 70 program). On July 3, 1996 (61 FR 34733), EPA published a final rule granting interim approval of Maryland's part 70 operating permits program. Please see these proposed and final rules for a full explanation of the reasons why Maryland did not receive full approval of its part 70 program. Under the Act, Maryland had two years after receiving interim approval in which to correct the identified deficiencies of its part 70 program. In recognition of States' efforts to implement the Title V permitting program and EPA's own efforts to revise its implementing regulations, EPA granted several extensions to the interim approval period. A lawsuit was filed against EPA on June 21, 2000 by the EarthJustice Legal Defense Fund on behalf of the Sierra Club and the New York Public Interest Research Group, regarding these extensions. In settlement of that litigation, EPA entered into a settlement agreement which provides that no further extensions of the interim approval period will be granted for any part 70 operating permit programs, including the State of Maryland's, beyond December 1, 2001. MDE will not be able to address all interim approval deficiencies by December 1, 2001. In particular, Maryland will not have enacted legislation to provide, unambiguously, standing for judicial review of its permits consistent with section 502(b)(6) of the Act and 40 CFR 70.4(b)(3)(x) and which meets the minimum threshold requirements of Article III of the U.S. Constitution for organizations and individuals. Therefore, on December 1, 2001, Maryland will lose its interim approval status of its part 70 permitting program. Pursuant to the Act, Maryland will be required to implement a part 71 Federal operating permit program effective December 1, 2001.

The Act and its implementing regulations under the part 71 authorize EPA to delegate authority to any state

agency that submits adequate regulatory procedures for implementation and enforcement of the part 71 operating permits program. On September 24, 2001, MDE requested full delegation of authority to implement and enforce the federal operating permits program consistent with the requirements of Title V of the Act and part 71. MDE provided all necessary documentation that the State of Maryland has adequate authority and adequate resources to implement and enforce the part 71 Federal permitting program.

Pursuant to 40 CFR 71.10(b), EPA hereby notifies the public that effective December 1, 2001, it has granted MDE's request and is fully delegating the authority to implement and enforce the Federal operating permits program as set forth under 40 CFR part 71. Under this delegation, MDE has authority to implement and enforce the Federal operating permits program consistent with the requirements of Title V as set forth under the part 71 program. As previously stated, EPA retains its authority to (1) object to the issuance of any part 71 permit, (2) act upon petitions submitted by the public and (3) collect fees from all owners or operators of part 71 sources if it is demonstrated that MDE is not adequately implementing the part 71 program in accordance with the Delegation of Authority Agreement, part 71, and/or the Act. The full delegation is set forth in a Delegation of Authority Agreement between EPA Region III and MDE signed and dated on November 27, 2001. If, at any time, EPA determines that MDE is not or cannot adequately implement or enforce the requirements of part 71, this delegation may be revoked, in whole or in part, pursuant to 40 CFR 71.10(c).

Dated: November 27, 2001.

Chlorpyrifos; Receipt of Requests for End-Use Product Cancellations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Companies that hold the pesticide registrations of end-use pesticide products containing chlorpyrifos [*O,O*-diethyl] *O*-(3,5,6-

trichloro-2-pyridinyl)phosphorothioate] have asked EPA to cancel their registrations. Pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is announcing the Agency's receipt of these requests from the registrants. These requests for voluntary cancellation are the result of a Memorandum of Agreement signed by EPA and the basic manufacturers of the active ingredient chlorpyrifos on June 7, 2000. Registrants identified in this notice requesting voluntary cancellation are in large part the customer of these basic manufacturers. Given the potential risks, both dietary and non-dietary, that chlorpyrifos use poses, to children, EPA intends to grant the requested cancellations. EPA also plans to issue a cancellation order for the canceled registrations at the close of the comment period for this announcement. Upon the issuance of the cancellation order, any distribution, sale, or use of these chlorpyrifos products will only be permitted if such distribution, sale, or use is consistent with the terms of that order.

DATES: Comments, identified by docket control number OPP-34203K, must be received on or before January 4, 2002. Comments on the requested registration cancellations must be submitted to the address provided below and identified by docket control number OPP-34203K.

ADDRESSES: Comments may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit I. of the **SUPPLEMENTARY INFORMATION**. To ensure proper receipt by EPA, it is imperative that you identify docket control number OPP-34203K in the subject line on the first page of your response.

II. Receipt of Requests to Cancel Registrations

A. Background

In a memorandum of agreement ("Agreement") effective June 7, 2000, EPA and the basic manufacturers of the active ingredient chlorpyrifos agreed to several voluntary measures that will reduce the potential exposure to children associated with chlorpyrifos containing products. EPA initiated the negotiations with registrants after finding chlorpyrifos, as currently registered, was an exposure risk especially to children. As a result of the Agreement, registrants that hold the pesticide registrations of end-use products containing chlorpyrifos (who are in large part the customer of these basic manufacturers) have asked EPA to cancel their registrations for these products. Pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is announcing the Agency's receipt of these cancellation requests from the registrants.

In the **Federal Register** of September 20, 2000 (65 FR 56886) (FRL-6743-7), EPA published a notice of the Agency's receipt of amendments and cancellations for manufacturing use products and associated end-use products for signatories of the Memorandum of Agreement signed on June 7, 2000, and subsequent ancillary agreements. These requests were submitted as a result of the Memorandum of Agreement that was signed on June 7, 2000, between EPA and the basic manufacturers of chlorpyrifos. A copy of the Memorandum of Agreement that was signed on June 7, 2000, is located in OPP docket control number 34203D.

B. Requests for Voluntary Cancellation of End-Use Products

Under section 6(f)(1)(A) of FIFRA, registrants may request at any time, that EPA cancel any of their pesticide registrations. Section 6(f)(1)(B) of FIFRA requires that EPA provide a 30-day period in which the public may comment before the Agency may act on the request for voluntary cancellation. Given the potential risks, both dietary and non-dietary, that chlorpyrifos use poses, to children, EPA intends to grant the requested cancellations at the close of the comment period for this announcement.

III. Proposed Existing Stocks Provisions

The registrants have requested voluntary cancellation of the chlorpyrifos registrations identified in the Table. Pursuant to section 6(f) of FIFRA, EPA intends to grant the requests for voluntary cancellations. For purposes of the cancellation order that the Agency intends to issue at the close of the comment period for this announcement, the term "existing stocks" will be defined pursuant to EPA's existing stocks policy at June 26, 1991 (56 FR 29362) (FRL-3846-4) as those stocks of a registered pesticide product, which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation. Any distribution, sale, or use of existing stocks after the effective date of the cancellation order that the Agency intends to issue that is not consistent with the terms of that order will be considered a violation of section 12(a)(2)(K) and/or 12(a)(1)(A) of FIFRA.

1. *Distribution or sale by registrants—i. Restricted use and package size limitations.* Except for the purposes of returns for relabeling consistent with the June 7, 2000, Memorandum of Agreement, shipping for export

consistent with the requirements of section 17 of FIFRA, or proper disposal:

(a) The distribution or sale by registrants of existing stocks of any EC formulation product listed in the Table will not be lawful under FIFRA, as of the date of publication of the cancellation order in the **Federal Register**, unless the product is labeled as restricted use.

(b) The distribution or sale by registrants of existing stocks of any product listed in the Table (other than containerized baits in child resistant packaging (CRP)) that is not an EC, will not be lawful under FIFRA as of the date of the cancellation notice, unless the product is either labeled for restricted use or packaged in containers no smaller than 15 gallons of a liquid formulation or 25 pounds of a dry formulation.

ii. *Prohibited uses.* Except for the purposes of returns for relabeling consistent with the June 7, 2000 Memorandum of Agreement, shipping for export consistent with the requirements of section 17 of FIFRA, or proper disposal, the distribution or sale of existing stocks by registrants of any product identified in the Table that bears instructions for any of the following uses will not be lawful under FIFRA as of the date of publication of the cancellation order in the **Federal Register**:

(a) Termite control, unless the product bears directions for use of a maximum 0.5% active ingredient (a.i.) chlorpyrifos end-use dilution.

(b) Post-construction termite control, except for spot and local termite treatment, provided the label of the product states that the product may not be used for spot and local treatment after December 31, 2002.

(c) Indoor residential except for containerized baits in CRP.

(d) Indoor non-residential except for containerized baits in CRP and products with formulations other than EC that bear labeling solely for one or more of the following uses: Warehouses, ship holds, railroad boxcars, industrial plants, manufacturing plants, food processing plants, or processed wood products treated during the manufacturing process at the manufacturing site or at the mill.

(e) Outdoor residential except for products bearing labeling solely for one or more of the following public health uses: Individual fire ant mound treatment by licensed applicators or mosquito control by public health Agencies.

(f) Outdoor non-residential, non-agricultural except for products that bear labeling solely for one or more of the following uses: Golf courses, road medians, and industrial plant sites, provided the maximum label application rate does not exceed 1 lb a.i./per acre; mosquito control for public health purposes by public health Agencies; individual fire ant mound treatment for public health purposes by licensed applicators; and fence posts, utility poles, railroad ties, landscape timbers, logs, pallets, wooden containers, poles, posts, processed wood products, manhole covers, and underground utility cable and conduits.

2. *Retail and other distribution or sale.* The retail sale of existing stocks of products listed in the Table bearing instructions for the prohibited uses set forth above in Units III.1.(ii) (a)-(f) of this document will not be lawful under FIFRA after December 31, 2001. Except as otherwise provided in this order, any other distribution or sale (for example, return to the manufacturer for relabeling) is permitted until stocks are exhausted.

3. *Final distribution, sale and use date for pre-construction termite control.* The distribution, sale or use of any product listed in the Table bearing instructions for pre-construction termiticide use will not be lawful under FIFRA after December 31, 2005, unless prior to that date, EPA has issued a written determination that such use may continue consistent with the requirements of FIFRA.

4. *Use of existing stocks.* Except for products bearing those uses identified above in Unit III.3. of this document, EPA intends to permit the use of existing stocks of products listed in the Table until such stocks are exhausted, provided such use is in accordance with the existing labeling of that product.

FEDERAL RESERVE SYSTEM

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Board of Governors of the Federal Reserve System (Board).

ACTION: Notice and request for comment.

SUMMARY: In accordance with the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the Board, the Federal Deposit Insurance Corporation (FDIC), and the Office of the Comptroller of the Currency (OCC) (the "agencies") may not conduct or sponsor, and the respondent is not required to respond to, an information collection unless it displays a currently valid Office of Management and Budget (OMB) control number. The agencies, under the auspices of the Federal Financial Institutions Examination Council (FFIEC), propose to extend, without
